FOXTON INCLINED PLANE TRUST
Company limited by guarantee

Directors report
Year ended 31 December 2024

1. Objectives

The current Objectives of the Trust are:

- ~ To promote encourage and foster public understanding and enjoyment of all aspects of the Foxton Inclined Plane ("the Plane") including any associated features or land in the surrounding area;
- ~ To promote the restoration of the Plane to good and navigable structural and mechanical order and condition.

2. Organisation of the Trust

The Council is comprised of the Directors of the Trust, who are also its Trustees.

3. Review of activities and future developments

The accounts indicate a surplus of £3,806 compared to the deficit last year of £6,890. However this recognises a grant from Harborough District Council of £15,540. This is for the refurbishment of the museum. The corresponding expenditure will occur in 2025.

As at 31st December 2024 the trust had accumulated reserves of £33,945 which are stated after a retained provision of £10,000 for the Museum Maintenance Fund.

There were further improvements in visitor numbers compared with 2023, and consequent increased revenue. Work continued on developing the museum display and narrative and providing guided tours of the inclined plane together with developing or hosting focused exhibitions.

An investment programme commenced during the year to significantly increase the quality of the visitor experience at the museum through internal redesign and alterations and the provision of new creative and educational interactive opportunities. These link with the development of educational outreach through local schools. Grants were received to help fund these initiatives which continued into 2025.

The museum was temporarily flooded in August as a result of an error in the operation of the locks. Some damage was sustained, and additional costs were incurred to dry and dehumidify the museum building. Some of these costs were reimbursed by an insurance claim.

The focus for 2025 will be to complete the investment programme and continue to improve the visitor experience and educational outreach.

4. Reserve Policy

The movement of Engineering study funds into our general reserve remains outstanding at this time.

5. Directors

The directors (who are also Trustees) who held office during the year are as stated below:

S R M Park Chairman

J M Matts

D R Harris

G A Parsons

M G Beech

P Hitchcock

Directors responsibilities

- select suitable accounting policies and apply them consistently;
- make judgements and estimates that are reasonable and prudent;

FOXTON INCLINED PLANE TRUST
Company limited by guarantee

Directors report (continued)
Year ended 31 December 2024

- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Examiner

Cedar Accountancy Limited, of Leicester were re-appointed by the Trust as the Independent Examiners.

These financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

This report was approved by the Board on 23 September 2025 and signed on its behalf by

G A Parsons
Director

Notes to the financial statements
Year ended 31 December 2024

1. General information

The company is a private company limited by guarantee, registered in United Kingdom. The address of the registered office is The BoilerHouse at Foxton Locks, Middle Lock, Gumley Road, Foxton, Leicestershire, LE16 7RA.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer, usually on despatch of the goods; the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

FOXTON INCLINED PLANE TRUST
Company limited by guarantee

Notes to the financial statements (continued)
Year ended 31 December 2024

Tangible assets

Tangible assets are initially recorded at cost, and are subsequently stated at cost less any accumulated depreciation and impairment losses.

Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other comprehensive income and accumulated in capital and reserves, except to the extent it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in capital and reserves in respect of that asset. Where a revaluation decrease exceeds the accumulated revaluation gains accumulated in capital and reserves in respect of that asset, the excess shall be recognised in profit or loss.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

If there is an indication that there has been a significant change in depreciation rate, useful life or residual value of tangible assets, the depreciation is revised prospectively to reflect the new estimates.

Impairment

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

When it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stocks to their present location and condition.

Provisions

Provisions are recognised when the entity has an obligation at the reporting date as a result of a past event; it is probable that the entity will be required to transfer economic benefits in settlement and the amount of the obligation can be estimated reliably. Provisions are recognised as a liability in the statement of financial position and the amount of the provision as an expense.

Provisions are initially measured at the best estimate of the amount required to settle the obligation at the reporting date and subsequently reviewed at each reporting date and adjusted to reflect the current best estimate of the amount that would be required to settle the obligation. Any adjustments to the amounts previously recognised are recognised in profit or loss unless the provision was originally recognised as part of the cost of an asset. When a provision is measured at the present value of the amount expected to be required to settle the obligation, the unwinding of the discount is recognised in finance costs in profit or loss in the period it arises.

FOXTON INCLINED PLANE TRUST
Company limited by guarantee

Notes to the financial statements (continued)
Year ended 31 December 2024

Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Where investments in non-convertible preference shares and non-puttable ordinary shares or preference shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in profit or loss. All other such investments are subsequently measured at cost less impairment.

Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Other financial instruments are subsequently measured at fair value, with any changes recognised in profit or loss, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets or either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

Defined contribution plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

When contributions are not expected to be settled wholly within 12 months of the end of the reporting date in which the employees render the related service, the liability is measured on a discounted present value basis. The unwinding of the discount is recognised in finance costs in profit or loss in the period in which it arises.

4. Limited by guarantee

The company has no share capital and is limited by guarantee. In the event of winding up, the liability of each member is limited to £1.

5. Surplus before taxation

Surplus before taxation is stated after charging/(crediting):
