

Report of the Trustees

The trustees who are also directors of the charity for the purposes of the Companies Act 2006, present their report with the financial statements of the charity for the year ended 31 December 2020. The trustees have adopted the provisions of Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2019).

OBJECTIVES AND ACTIVITIES

Objectives and aims

The objectives and aims of the museum are to advance the education of the public by :

- (a) Rescuing, restoring and displaying a collection of internal combustion engines of historical or technical interest and explain the development of the internal combustion engine, and
- (b) Rescuing, preserving and displaying items relating to the history of Poynton of historical or technical interest with particular emphasis on the local coalmining industry and industrial archaeology.

Charitable activities

Our Vision

To establish the foremost collection of early internal combustion technology presented in an educational and visitor-oriented manner. Provide an organised and functional operation that will gain broad based support and generate substantial growth.

Our Mission

- 1. To collect, preserve, and interpret historically significant and mechanically interesting early stationary internal combustion engines for the education and enjoyment of everyone.
- 2. To be a focal point that tells the social and industrial history of Poynton. As we are built on the old Anson Colliery site, there will be a particular emphasis on the local coal mining industry.
- 3. To continue developing as a recognised tourist attraction, improving the facilities and amenities we offer visitors to Cheshire.

Overall the Museum has a passive collecting effort directed at filling gaps in the collection by accepting donations from private collectors and occasionally other museums. Where engines are known to exist in the National collection (or wider) we shall approach those museums to obtain the engine on a long term loan. On the occasions when the museum is contacted about saving specific engines a decision will be taken on a case by case basis about whether the resources of the museum will be best used to help save that exhibit.

The Museum also maintains a substantial library and archive related to the objects in the collection and to the internal combustion engine in general. Additions will be encouraged and work on indexing material to be undertaken.

ACHIEVEMENT AND PERFORMANCE

Specific achievements

The new display building was ordered and paid for just prior to the Covid outbreak. Volunteering was put on hold however specific maintenance jobs were maintained by a small team.

Building work recommenced when restrictions allowed up until the second lockdown with efforts made to keep spending down to a minimum.

Some of the goals for 2021

The main goal is to erect the frame and cladding of the new display building and keeping spend down to a minimum.
