Achievements and performance

The Association has two key performance indicators, membership and participation. Membership increased reflecting a strong and engaged community. Participation rates in the Association's programme of training and competitions once again increased, reaffirming the relevance and value of these to the membership.

Proficiency Award Scheme- Rewarding Members

When a member competes in the central competitions they are awarded a proficiency. Proficiencies are awarded as follows:

- An award of Merit (40%) is worth 1 point
- An award of Distinction (75%) is worth 2 points

The competition year runs from 1st September- 31st August. During 2023-2024 a total of 1,900 certificates were issued to recognise the members' participation in the YFCU activities.

In 2023-2024 Young Farmers' Clubs of Ulster (YFCU) introduced Cultivating Young Leaders programme, designed to empower and educate members aged between 18 and 30 of which 16 young people completed.

Child Protection Training

Child protection training continues to be a priority for the Association. During 2023/2024 a total of 146 members took part in the Safeguarding training.

As part of our child protection strategy, the YFCU continues to ensure that staff, key elected officials and volunteers/ trainers are checked through Access NI. All members, parents and office bearers are provided with access to the Association's child protection policies and procedures.

External Scheme

YFCU continues to be a centre for the Duke of Edinburgh Awards Scheme, thus giving our members the opportunity to take part in this challenging and highly rewarding youth development programme. This year, we had 10 members achieve their bronze awards, 13 members achieved their silver award and 15 gold award recipients.

Financial review

As in previous years the Association's core funding is from grants, provided by Education Authority (EA) and Department of Agriculture, Environment and Rural Affairs (DAERA). In addition to grants, monies are raised from donations, sponsorship, membership and competition fees.

This year there was an decrease in income of £67,565 (2023: Increase of £121,557). Overall the Accounts show a surplus before revaluation of properties of £121,980 (2023: surplus £193,621). A Headquarters surplus of £13,523 is recorded (includes endowment surplus). The principles of 'best value' and 'added value' continue to be applied to all expenditure and activities undertaken.

It is the policy of the Association that unrestricted funds which have not been designated for a specific use should be maintained at a level equivalent to between three- and six-month's expenditure. The Executive Committee considers that reserves at this level will ensure that, in the event of a significant drop in funding, they will be able to continue the Association's current activities while consideration is given to ways in which additional funds may be raised. This level of reserves has been maintained throughout the year. The Executive Committee has considered the level of reserves required and has agreed a policy where the unrestricted funds not committed or invested in tangible fixed assets held by the charity should be between 9-12 months of unrestricted annual expenditure. The unrestricted funds not committed or invested in tangible fixed assets at 31 August 2024 are £654,991 with the unrestricted annual expenditure range being £216,502 (9 months) to £288,670 (12 months). The reserves held are currently in excess of the agreed reserves policy.

EXECUTIVE COMMITTEE REPORT (INCLUDING DIRECTORS' REPORT) (CONTINUED) FOR THE YEAR ENDED 31 AUGUST 2024

The Executive Committee has assessed the major risks to which the Association is exposed, and are satisfied that systems are in place to mitigate exposure to the major risks.

The Executive Committees' assessment of the major risks has identified that loss of government grants is the major financial risk for the charity. A key element in the management of financial risk includes active discussion with the funders and regular review of funds and active management of trade debtors and creditors balances to ensure sufficient working capital.

Attention has also been focused on non-financial risks arising from fire, health and safety, child protection, litigation, etc. These risks are managed by ensuring robust policies and procedures are in place and regular awareness training for members in these areas.
