Objectives & Activities

The public benefit flowing from the purposes of Moneymore Activity Group is to educate members over 60 years of age who live in Moneymore and district about good health in its broadest sense. Members will attend health related training courses such as confidence building, healthy eating, health awareness, First Aid and as a result will be encouraged to lead more healthy active lives. They will also attend fitness activities suited to the over 60's age group and by doing so will become more fit, more healthy and more purposeful lives. A further benefit of this is that these individuals will be able to attend these activities in a setting close to their own homes. This will improve their quality of life, reduce isolation and encourage cross community activity in a relatively isolated rural community. We will measure these benefits by regularly consulting our members who will help our Management Committee to decide on which activities they wish to become involved with. We will also measure the benefits by regular evaluation and monitoring forms which will be administered at the end of each activity or group activities and also measure the benefits by counting the numbers at each activity and recording the opinions of the participants.

Objectives & Activities

The public benefit flowing from the purposes of Moneymore Activity Group is to educate members over 60 years of age who live in Moneymore and district about good health in its broadest sense. Members will attend health related training courses such as confidence building, healthy eating, health awareness, First Aid and as a result will be encouraged to lead more healthy active lives. They will also attend fitness activities suited to the over 60's age group and by doing so will become more fit, more healthy and more purposeful lives. A further benefit of this is that these individuals will be able to attend these activities in a setting close to their own homes. This will improve their quality of life, reduce isolation and encourage cross community activity in a relatively isolated rural community. We will measure these benefits by regularly consulting our members who will help our Management Committee to decide on which activities they wish to become involved with. We will also measure the benefits by regular evaluation and monitoring forms which will be administered at the end of each activity or group activities and also measure the benefits by counting the numbers at each activity and recording the opinions of the participants.

Compliance with Public Benefit

The Charity has given careful consideration to the Charity Commission for Northern Ireland's guidance on public benefit to ensure that the activities entered into during the year have helped to achieve the Charity's objectives and activities, as well as providing public benefit.

Financial Review

Total Payments (£129) for the year ended 31st December 2022 were exceeded by Total Receipts (£190) by £61, increasing the total cash funds held to £4,317 from £4,256. (Pages 6 &7).

Charitable Purposes

The charity is established to promote the health of the inhabitants and community of the Moneymore District area. The charity's strategy is aimed at over 60's, recognising the importance of addressing social, economic and environmental influences on health, without distinction of sex, race, political, religious or other opinions by associating with the said inhabitants, local authorities, public agencies and voluntary and other organisation in a common effort to enable people to learn more about leading a healthy life, promoting good health in its broadest sense. Unfortunately, due to the Covid-19 pandemic effects still being felt, there were no activities in the year. It is hoped that activities can return to near normal in early 2023.
