Eaglemount Christian Centre is a charitable organisation, for the purpose of the promotion of the Christian religion.

The benefits include a spiritual benefit to the members of the general public, of all ages and without geographical or sectarian limitation, within Northern Ireland, primarily in South and East Belfast.

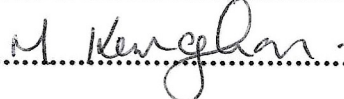

All benefits e.g. knowledge gained, are incidental and are necessary for the on-going function of the organisation.

All the purposes are only beneficial and are not harmful.

The benefits are demonstrated through bible study, prayer, corporate worship and feed-back from the members. This helps the public to understand and implement standards relating to everyday living, including moral issues. Both individuals and families have been impacted and benefited through the work of the organisation.

Eaglemount Christian Centre can verify that our financial accounts have been examined by an independent examiner and there are no matters that require attention. Our accounts are in credit and we do not have any debts.
