Treasurers Financial Statement 2025

This summary page is sufficient and contains all the relevant facts and figures to give you an over-all picture of the Societies financial state. Should you wish to examine the detail the attached pages contain the necessary information.

Overall the Societies finances remain in very good stead. During this year we supported 22 children from 12 families distributed between 7 Parishes in the Diocese. This year has seen payments totalling £28600 being paid by the Society through the Rectors. To finance this £50000 was withdrawn from the investments. We note an decrease from 25 to 22 children supported. Donations this year were down on last year from £1380 to £571 and when added to the current account earned income of £29027 making a total of £29598. As Requested last year we increased our Grants by an additional £11000 bringing our total awarded to £28600. Total Society valuation on 01.01.2025 was £351322 and after distributing £28600 our closing balance at the end of the year was £358527 which is still up by approx. £7,200. At last years AGM it was suggested we 'spend more' because of the sustained growth evidenced in our account balance. To this end each grant in the second half of 2024 was increased by £100 at all three levels. This level was maintained in 2025 and an additional grant of £500 per child was awarded. I see no reason not to make the same additional grant in 2026.
