Mission, Objectives and Strategy

Objectives

The objectives of the charity are to promote good health and well being and relieve sickness and stress among those inhabitants of the UK and Republic of Ireland who are living with or affected by HIV or a related medical condition and their families, by providing advice, support, therapies, counselling, independent advocacy and a confidential helpline. To advance public education by raising awareness about all matters associated with the causes and prevention of HIV and to commission and promote research into all matters relating to HIV and to disseminate the useful results of such research.

The charity has a general aim of seeking to prevent the spread of HIV through information, education, raising awareness and working to remove the stigma surrounding HIV whilst upholding the principles of dignity, equality and respect for individuals affected by the condition.

The strategies employed to achieve the Charity's objectives are to;

- Provide a telephone helpline service offering confidential information and advice on any aspect of HIV and sexual health.
- Offering volunteering opportunities
- Encourage people living with HIV to participate in the Charity's work as well as taking responsibility for their own lives
- Present a range of education and prevention programmes
- Make available, in a variety of locations, support services which include complimentary therapies, one to one and group support sessions, counselling, healthy living seminars, home support and access to information services.

The principal activities of the Charity are to raise awareness and challenge negative perceptions of HIV across NI, and to support and promote positive living for anyone living with or affected by HIV.

Public Benefit

The trustees have referred to the guidance contained in the Charity Commission's general guidance on public benefit when reviewing their aims and objectives and in planning future activities. They meet the public benefit test by providing education and awareness to both the general public, those living with HIV and their families with regard to obtaining a better understanding of the condition. They also advise on preventative measures which can be taken.

Financial Results

At the end of the financial year the charity has assets of £208,030 (2024 - £320,443) and liabilities of £15,941 (2024 - £18,792). The net assets of the charity have decreased by £(109,771).

Reserves Position and Policy

Reserves Policy

The trustees recognise that it is necessary to hold reserves in order to offset the effects of fluctuations in incoming resources and thereby secure the continued viability of the Charity beyond the immediate future. In keeping with good accountancy practice, it is the aim of the trustees to hold free reserves which equate to three months operating costs. At 31st March 2025 the free reserves amounted to £192,091.

As the organisation commences a new Strategic Planning period, work to increase it's focus to raise awareness of HIV and related sexual health matters in Northern Ireland through a suite of modernised accredited education and prevention programmes has begun.

While the funding environment remains challenging and support services programme continues to evolve to meet the ever-changing needs of people affected by HIV in Northern Ireland, plans to roll out the NI Buyers Club are well developed and it is hoped this will support the longer term sustainability of the organisation.
