**Notes to the Financial Statements**  
**for the Year Ended 30 June 2025**

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant principal accounting policies adopted, judgements and key sources of estimation uncertainty in the preparation of the financial statements are set out below. These policies have been consistently applied to all periods presented unless otherwise stated.

**1.1 Basis of preparation of financial statements**

The charitable company constitutes a public benefit entity as defined by FRS 102 and its operations and principal activities are as disclosed in the Report of the Trustees.

The financial statements have been prepared in accordance with Charities SORP (FRS102) "Accounting and Reporting by Charities: "Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102)" (effective 1 January 2019), the Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland (FRS 102), applicable charity law, the Companies Act 2006 and United Kingdom Generally Accepted Practice.

The financial statements are prepared in sterling, which is the functional currency of the charitable company. Monetary amounts in these financial statements are rounded to the nearest £.

Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy note(s).

**1.2 Preparation of the accounts on a going concern basis**

The financial statements have been prepared on a going concern basis as the Trustees are of the view that the immediate future of the charitable company for the next 12 months is secure and that on this basis the assessment of the Trustees is that the charitable company is a going concern.

**1.3 Fund accounting**

Unrestricted funds are available for use at the discretion of the Trustees in furtherance of the purposes of the charitable company. Restricted funds are donations which the donor has specified are to be solely used for particular areas of the charitable company's work or for specific projects being undertaken by the charitable company, or funds which have been raised for particular purposes. The costs of raising and administering such funds are charged against the specific fund.

**1.4 Income recognition policies**

Items of income are recognised and included in the accounts when the company is legally entitled to the income, any performance conditions attached to the item of income have been met or are fully within the control of the company, the amount can be measured reliably and receipt is considered probable.

Income is deferred only when the charity has to fulfil conditions which are not fully within the control of the charity before being entitled to it or where the donor/funder has specified that the income is to be expended in a future period.

Income tax recoverable in relation to donations received under Gift Aid or deeds of covenant is recognised at the time of the donation.

**Notes to the Financial Statements**  
**for the Year Ended 30 June 2025**

**1.5 Expenditure recognition policies and irrecoverable VAT**

Expenditure is recognised on an accruals basis once there is a legal or constructive obligation to make a payment to a third party, it is probable that settlement will be required and the amount of the obligation can be measured reliably. Expenditure is classified under the following activity headings:

Charitable activities include the costs of events undertaken to further the purposes of the company and their associated support costs, including governance costs.

Support costs are those costs incurred in support of direct expenditure on the objects of the company and include project management carried out at Headquarters. Governance costs are those incurred in connection with administration of the company and compliance with constitutional and statutory requirements.

The analysis of these costs is included in notes 5 and 6.

Irrecoverable VAT is charged as a cost against the activity for which the expenditure was incurred.

**1.6 Tangible fixed assets and depreciation**

Tangible fixed assets are stated at cost less accumulated depreciation and impairment losses. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following basis:

Computer Equipment	-	25% Straight line
--------------------	---	-------------------

The carrying value of the tangible fixed assets is reviewed annually for impairment in period to determine if events or changes in circumstances indicate the carrying value may not be recoverable.

**1.7 Debtors**

Debtors are recognised at the settlement amount due after any trade discount offered. Prepayments are valued at the amount prepaid after taking account of any trade discounts due. Any losses arising from impairment are recognised in expenditure.

**1.8 Cash at bank and in hand**

Cash at bank and in hand includes cash and short term highly liquid investments with a short maturity date of three months or less from the date of acquisition or opening of the deposit or similar account.

**1.9 Impairment**

Assets not measured at fair value are reviewed for any indication that the asset may be impaired at each balance sheet date. If such indication exists, the recoverable amount of the asset, or the asset's cash generating unit, is estimated and compared to the carrying amount. Where the carrying amount exceeds its recoverable amount, an impairment loss is recognised in profit or loss unless the asset is carried at a revalued amount where the impairment loss is a revaluation decrease.

**Notes to the Financial Statements**  
**for the Year Ended 30 June 2025**

**1.10 Creditors and provisions**

Creditors and provisions are recognised where the charity has a present obligation resulting from a past event that will probably result in the transfer of funds to a third party and the amount due to settle the obligation can be measured or estimated reliably. Creditors and provisions are normally recognised at their settlement amount after allowing for any trade discounts due. When the effect of the time value of money is material, the amount of a provision shall be the present value of the amount expected to be required to settle the obligation.

**1.11 Financial instruments**

The company only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value with the exception of bank loans which are subsequently measured at the carrying value plus accrued interest less repayments.

**1.12 Critical accounting judgements and estimation uncertainty**

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. There are no critical judgements in applying the company's accounting policies. There are no critical accounting estimates and assumptions.

**2. LEGAL STATUS**

The charity is a company limited by guarantee, incorporated in the United Kingdom and registered in Northern Ireland, and accordingly does not have share capital. In the event of the charity being wound up, the liability in respect of the guarantee is limited to £10 per member of the charity. The charity's registered office address is given on page 1 of the Report of the Trustees.
