

The Gis A Hug Foundation Annual Report for year 1st April 2022 to 31st March 2023.

This has been another difficult year for our Charity.

We had no talks or Fund Raiser Events arranged due to family commitments and some health issues. However we have had some opportunities to provide Carbon Monoxide Alarms and Advice on the dangers of Carbon Monoxide Poisoning within our local and surrounding areas to various members of the public as they have made contact with the charity.

Unfortunately our accounts show zero donations have been received for this financial year.

We are hopeful that 2022 - 2023 will give us more opportunities to provide Carbon Monoxide Alarms and Advice to the general public here in Northern Ireland.

This concludes my report for this financial year.

Many thanks to all committee members and volunteers who helped and supported us this year we couldn't do it without you.

Catherine McFerran
Secretary
Gis A Hug Foundation
