Charity Trustees –

- Mary Simms
- James Millar
- Rachel Thompson

Trustees Annual Report

01/04/2022 – 31/03/2023

2022/2023 finds us in a holding pattern, meaning that we remain in the same state and continue to do the same thing while waiting for something to happen. Many in scripture give us an example of a holding pattern – Noah being a prime example waiting for the rains to come. God showed us how to maintain this holding pattern, doing what is immediately before us – opening our doors on a Sunday morning and on a Tuesday evening, breaking bread together, keeping God close and continuing our walk in Christ allowing God to fulfil His purpose. We must remember this is His plan, not ours.

We continue to support Good News Ministry in India, sending more finances to support Rev Chanti Raju Karini, the founder as he goes through cancer treatment, each chemo treatment costing £800.

As always there are a few of our congregation who continue to be ill, we visit them regularly to encourage them in Christ.

We believe we the trustees have had a regard to the Commissions Public Benefit requirement.

God continues to be faithful to us in every area of life and encourages us to be faithful to Him as we look forward to another year.

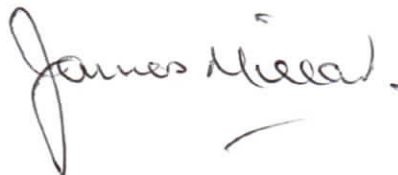

On reviewing our accounts, we give thanks for every offering, they are up slightly on last year however expenditure has increased with the costs doubling in some areas. Our bank balance is down but remains healthy.
