

Tattyreagh Youth and Community Group Trustee Report- 2023 2024 Reporting Period

Tattyreagh Youth and Community Group has 12 active volunteers and over 130 members.

We have the Tattyreagh Community Wildlife Garden with raised beds, wildlife habitats, and planting done by schools, seniors, and volunteers.

The garden is now a cross-community space used by local schools, seniors, toddlers, and youth.

Our group also delivered a playpark, youth club, seniors group, and seasonal community events addressing rural isolation over the years.

In this reporting period we have minimal new activity, only receiving a £500 Council grant to support our community programmes.
