

3rd Antrim Brownies Annual report

Charity number 104943

Three leaders and 12 to 14 girls throughout the year took part in all activities.

The girls worked towards different badges over the year.

Animals visit the hall for Brownies and rainbows to see and learn about holding some small animals and what they like to eat. The brownies bought some hay and animal food for the shelter.

In September 2019 at a trip to Lorne the girls started to learn how to light a fire with sticks and kindle to make s'mores

This year the girls started a new program of activities for Brownies. Each girl got a new badge book to follow the program to get the new badges.

The girls had fun on trips to Lorne and to the supermarket to help shop for food where they learned how to budget and get food for the food bank as part of their charity badge.
