### Review of Activities, Achievements and Performance

The Directors are pleased to report that our service continues to be needed and has successfully expanded into the Mourne area in 2024. From the commencement of our service we have delivered up to and including 30th September 2024 end of life care services to 283 patients and their families over 2977 nights with 929 home visits in our three districts in the South Down area.

We have continued our strategy of public education in palliative care and advanced care planning which is in line with HSC policy. We have provided presentations and opportunities for discussion at many community groups and have more planned over the coming year.

We have funded several professional development courses for staff and other service providers in the area. We continue to support our nurses in achieving European Palliative Care Certification and Post Graduate part-time courses at local Universities when desired.

### Financial Review

Our fundraising model has matured somewhat in that the committee have not had to directly raise any funds for some time. Donations "in lieu of flowers" or "in memory of" are now the main source of income which is satisfactory at present.

The directors have delivered on retention of a suitable reserve amounting to (at least) six months running costs, thus allowing for expansion of services in the Mourne area.

- 5 After a hiatus in 2020 caused by the global pandemic we resumed normal service in 2021 and have since expanded into a new district, the Mourne area in 2024.

The Directors take all appropriate steps to moderate and manage the operational risks to which volunteers, staff and
