- We have provided opportunities for the children to participate in club and interclub competitions as matches their ability and age.
- We have assisted the children in attending social and leisure opportunities in settings tailored to their needs. They have made new friendships and develop their social skills. We have increased public awareness of Special Olympics through our club endeavours.

Activities of the Charity

Titanic Tigers ran a number of regular activities and events over the past 12 months. The activities were designed to develop the fundamental movement skills of our athletes; running, jumping throwing. During 2023 Tigers ran weekly training sessions, based around athletics skills providing opportunities for development of the athletes at their own level and pace.

Achievements, Performance & Public Benefit

Titanic Tigers have a weekly club night for all athletes. We have over 40 children attending with a waiting list also. There is great demand in the local area for a sports club specifically for children with learning disabilities. The activities are planned by our trained coaches to focus on developing fundamental movements skills. We use guest coaches to help us run sport specific sessions to allow our athletes to try other sports. We have partnered with Belfast Bulls Basketball Club and NICS Hockey club.

Titanic Tigers have been involved in a research project with Dublin City University in partnership with Special Olympics Ireland to look at a comparison of motor proficiency skills of children with intellectual disabilities and typically developing children. Researchers have visited Tigers and worked with our athletes (with parental permissions obtained)

We continue to use Bloomfield Collegiate School as our venue. This is an excellent community partnership and we have several Bloomfield girls volunteering with Titanic Tigers as part of their Duke of Edinburgh. In the summer months we have an agreement to use Campbell College track to enhance our training.

Trips have been an excellent way to allow our children to experience new places and allow family days out with extra support from Tigers volunteers. Some families find these days out are too difficult with their child. These have included, ice hockey, soft play and a local farm.

We held an end of year sports night and awards ceremony. Also we attended an interclub event with other Special Olympics club, this gives our children a tremendous experience travelling to an event and competing.

Parents and Special Olympics Ulster acknowledge the work we do in helping the children become more active, gaining confidence and developing a love of sport. Many friendships have been made and the club provides a support network for the parents also

The activities outlined above demonstrate how Titanic Tigers continues to implement its charitable purposes:

- provide or assist in the provision of sports training for the beneficiaries.

- provide opportunities for the beneficiaries to participate in Special Olympics competition at local, regional, national and international level.

- assist the beneficiaries by the provision of social and leisure opportunities and by helping to increase public awareness of the needs and capabilities of the beneficiaries with the object of improving their conditions of life.

Benefits to members of the public include:

- contributing to the development of the children's physical, communication and emotional skills

- contributing to their overall healthier lifestyle

- enhancing confidence and self-esteem

- increasing public awareness of the needs and capabilities of the children

Titanic Tigers has mitigated any potential harm from the activities through safeguarding training, access NI checks, and observance of good practice. We also have undertaken sports specific training for our coaches.

Titanic Tigers has carefully considered the Charity Commission for Northern Ireland's guidance on public benefit to ensure that the activities entered into during the year have helped to achieve Titanic Tigers' objectives and activities and provided public benefit.
