Structure, Governance and Management

Monkstown Boxing Club is a youth charity that has been working with the most vulnerable young people in Northern Ireland for nearly four decades. We were established in January 1983, when a small group of local people wanted to offer a positive outlet for youth through the establishment of an amateur boxing club. Fast forward 40 years and the club is recognised a pioneering youth and community hub, open 6 days a week including school holidays, offering young people a safe place to go, something to do and someone to talk to.

Monkstown Boxing Club's purpose is to help young people grow to be happy, healthy, and successful adults. Our boxing, fitness and youth space's provide young people with a range of activities, giving them the opportunity to try new things, meet new friends and gain support from passionate and positive youth workers and volunteers. Since 2012 through investment from a range of partners, the club has been delivering an award-winning education support programme for young people disengaged from mainstream education as well as providing young men's and young women's groups, a breakfast and after school's club, youth leadership and employability programmes. Called 'In Your Corner' the project works with over 250 young people on a weekly basis accessing services and support.

As a result of Covid-19, the club now provides a wide range of family and children's services to the local community including a food-bank service to families affected by poverty and a full-time Counsellor. It is this demand for place-based services that has driven our vision for a new flagship Community Wellbeing Hub in Monkstown that will contribute to economic regeneration in the area and provide children, young people, and adults with somewhere to go, inspiring things to do and supportive people to talk to.

Monkstown Boxing Club is a company limited by guarantee, incorporated on 21 February 2006 and registered with the Charity Commission Northern Ireland on 15 October 2021. It is governed under the company's Memorandum and Articles of Association.

All of Monkstown Boxing Club's governance is exercised by the Trustees, who are individuals whose extensive experience at senior executive and management levels in commerce, industry, civil service, academic and community service is made available to Monkstown Boxing Club on a voluntary and strongly committed basis. New Directors are appointed following an interview and assessment process. Following appointment, new Directors receive induction briefings on the strategic plan and financial activities of the company.

Day-to-day management of the project is headed by the Executive Director, assisted by the Lead Youth worker and education/ youth team. Issuing from this central leadership team, there is a line management structure that links and evaluates personnel and work progress in various projects and activities. The Executive Director reports directly to the Chair and Trustees.

Administration and accounting oversight operate through monthly reports on income and expenditure with the Finance Manager and Project Lead's. These include not only the immediate and cumulative past figures, but budgetary forecasts. This information is approved by the Executive Director and Deputy Director.

Risk Management

The Trustees have examined the major strategic, business, and operational risks which the charity faces and confirm that systems have been established to enable regular reports to be produced so that necessary steps can be taken to minimize those risks. During this financial year our Financial Protocols and Safeguarding Policy has been updated. A risk register is now included as a standing agenda at Board meetings.

Notes to the financial statements
Year ended 28th February 2025

1. General information

The company is a private company limited by guarantee, registered in Northern Ireland. The address of the registered office is Cashel Drive, Monkstown, Newtownabbey, BT37 0EY.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer (usually on despatch of the goods); the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Monkstown Boxing Club
Company limited by guarantee

Notes to the financial statements
Year ended 28th February 2025

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Where investments in non-convertible preference shares and non-puttable ordinary shares or preference shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in profit or loss. All other such investments are subsequently measured at cost less impairment.

Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Other financial instruments are subsequently measured at fair value, with any changes recognised in profit or loss, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

Notes to the financial statements
Year ended 29th February 2024

1. General information

The company is a private company limited by guarantee, registered in Northern Ireland. The address of the registered office is Cashel Drive, Monkstown, Newtownabbey, BT37 0EY.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer (usually on despatch of the goods); the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Monkstown Boxing Club
Company limited by guarantee

Notes to the financial statements
Year ended 29th February 2024

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Where investments in non-convertible preference shares and non-puttable ordinary shares or preference shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in profit or loss. All other such investments are subsequently measured at cost less impairment.

Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Other financial instruments are subsequently measured at fair value, with any changes recognised in profit or loss, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

Structure, Governance and Management

Monkstown Boxing Club is a youth work charity that has been working with the most vulnerable young people in Northern Ireland for over four decades. We were established in January 1983, when a small group of local people wanted to offer a positive outlet for youth through the establishment of an amateur boxing club. Fast forward 40 years and the club is recognised as a pioneering youth and community hub, open 6 days a week including school holidays, offering young people a safe place to go, something to do and someone to talk to.

Monkstown Boxing Club's purpose is to help young people grow to be happy, healthy, and successful adults. Our boxing, fitness and youth spaces provide young people with a range of activities, giving them the opportunity to try new things, meet new friends and gain support from passionate and positive youth workers and volunteers. Since 2012 through investment from a range of partners, the club has been delivering an award-winning education support programme for young people disengaged from mainstream education as well as providing young men's and young women's groups, a breakfast and after school's club, youth leadership and employability programmes. Called 'In Your Corner' the project works with over 250 young people on a weekly basis accessing services and support.

As a result of Covid-19, the club now provides a wide range of family and children's services to the local community including a food-bank service to families affected by poverty and a full-time Counsellor. It is this demand for place-based services that has driven our vision for a new flagship Community Wellbeing Hub in Monkstown that will contribute to economic regeneration in the area and provide children, young people, and adults with somewhere to go, inspiring things to do and supportive people to talk to.

Monkstown Boxing Club is a company limited by guarantee, incorporated on 21 February 2006 and registered with the Charity Commission Northern Ireland on 15 October 2021. It is governed under the company's Memorandum and Articles of Association.

All of Monkstown Boxing Club's governance is exercised by the Trustees, who are individuals whose extensive experience at senior executive and management levels in commerce, industry, civil service, academic and community service is made available to Monkstown Boxing Club on a voluntary and strongly committed basis. New Directors are appointed following an interview and assessment process. Following appointment, new Directors receive induction briefings on the strategic plan and financial activities of the company.

Day-to-day management of the project is headed by the Project Director, assisted by two Project Co-ordinators and an education/ youth team. Issuing from this central leadership team, there is a line management structure that links and evaluates personnel and work progress in various projects and activities. The Project Director reports directly to the Chair and Trustees.

Administration and accounting oversight operate through monthly reports on income and expenditure with the Finance Manager and Project Lead's. These include not only the immediate and cumulative past figures, but budgetary forecasts. This information is approved by the Project Director.

Risk Management

The Trustees have examined the major strategic, business, and operational risks which the charity faces and confirm that systems have been established to enable regular reports to be produced so that necessary steps can be taken to minimize those risks. During this financial year our Financial Protocols and Safeguarding Policy has been updated. A risk register is now included as a standing agenda at Board meetings.

Public Benefit Statement

The charity's beneficiaries are socially disadvantaged young people and the wider community. The public benefits of the charity include increased knowledge, skills and qualifications and improved employability for socially disadvantaged young people, increased knowledge, skills and work-related experience and improved employability and increased self-esteem and confidence for the workplace and increased access to further education, training and employment

Notes to the financial statements
Year ended 29th February 2024

1. General information

The company is a private company limited by guarantee, registered in Northern Ireland. The address of the registered office is Cashel Drive, Monkstown, Newtownabbey, BT37 0EY.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer (usually on despatch of the goods); the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

Notes to the financial statements
Year ended 29th February 2024

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Where investments in non-convertible preference shares and non-puttable ordinary shares or preference shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in profit or loss. All other such investments are subsequently measured at cost less impairment.

Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Other financial instruments are subsequently measured at fair value, with any changes recognised in profit or loss, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

Structure, Governance and Management

Monkstown Boxing Club is a youth work charity that has been working with the most vulnerable young people in Northern Ireland for over four decades. We were established in January 1983, when a small group of local people wanted to offer a positive outlet for youth through the establishment of an amateur boxing club. Fast forward 40 years and the club is recognised as a pioneering youth and community hub, open 6 days a week including school holidays, offering young people a safe place to go, something to do and someone to talk to.

Monkstown Boxing Club's purpose is to help young people grow to be happy, healthy, and successful adults. Our boxing, fitness and youth space's provide young people with a range of activities, giving them the opportunity to try new things, meet new friends and gain support from passionate and positive youth workers and volunteers. Since 2012 through investment from a range of partners, the club has been delivering an award-winning education support programme for young people disengaged from mainstream education as well as providing young men's and young women's groups, a breakfast and after school's club, youth leadership and employability programmes. Called 'In Your Corner' the project works with over 250 young people on a weekly basis accessing services and support.

As a result of Covid-19, the club now provides a wide range of family and children's services to the local community including a food-bank service to families affected by poverty and a full-time Counsellor. It is this demand for place-based services that has driven our vision for a new flagship Community Wellbeing Hub in Monkstown that will contribute to economic regeneration in the area and provide children, young people, and adults with somewhere to go, inspiring things to do and supportive people to talk to.

Monkstown Boxing Club is a company limited by guarantee, incorporated on 21 February 2006 and registered with the Charity Commission Northern Ireland on 15 October 2021. It is governed under the company's Memorandum and Articles of Association.

All of Monkstown Boxing Club's governance is exercised by the Trustees, who are individuals whose extensive experience at senior executive and management levels in commerce, industry, civil service, academic and community service is made available to Monkstown Boxing Club on a voluntary and strongly committed basis. New Directors are appointed following an interview and assessment process. Following appointment, new Directors receive induction briefings on the strategic plan and financial activities of the company.

Day-to-day management of the project is headed by the Project Director, assisted by two Project Co-ordinators and an education/ youth team. Issuing from this central leadership team, there is a line management structure that links and evaluates personnel and work progress in various projects and activities. The Project Director reports directly to the Chair and Trustees.

Administration and accounting oversight operate through monthly reports on income and expenditure with the Finance Manager and Project Lead's. These include not only the immediate and cumulative past figures, but budgetary forecasts. This information is approved by the Project Director.

Risk Management

The Trustees have examined the major strategic, business, and operational risks which the charity faces and confirm that systems have been established to enable regular reports to be produced so that necessary steps can be taken to minimize those risks. During this financial year our Financial Protocols and Safeguarding Policy has been updated. A risk register is now included as a standing agenda at Board meetings.

Public Benefit Statement

The charity's beneficiaries are socially disadvantaged young people and the wider community. The public benefits of the charity include increased knowledge, skills and qualifications and improved employability for socially disadvantaged young people, increased knowledge, skills and work-related experience and improved employability and increased self-esteem and confidence for the workplace and increased access to further education, training and employment

Structure, Governance and Management

Monkstown Boxing Club is a youth work charity that has been working with the most vulnerable young people in Northern Ireland for nearly four decades. We were established in January 1983, when a small group of local people wanted to offer a positive outlet for youth through the establishment of an amateur boxing club. Fast forward 40 years and the club is recognized a pioneering youth and community hub, open 6 days a week including school holidays, offering young people a safe place to go, something to do and someone to talk to.

Monkstown Boxing Club's purpose is to help young people grow to be happy, healthy, and successful adults. Our boxing, fitness and youth space's provide young people with a range of activities, giving them the opportunity to try new things, meet new friends and gain support from passionate and positive youth workers and volunteers. Since 2012 through investment from a range of partners, the club has been delivering an award winning education support programme for young people disengaged from mainstream education as well as providing young men's and young women's groups, a breakfast and after school's club, youth leadership and employability programmes. Called 'In Your Corner' the project works with over 250 young people on a weekly basis accessing services and support.

As a result of Covid-19, the club now provides a wide range of family and children's services to the local community including a food-bank service to families affected by poverty and a full-time Counsellor. It is this demand for place-based services that has driven our vision for a new flagship Community Wellbeing Hub in Monkstown that will contribute to economic regeneration in the area and provide children, young people, and adults with somewhere to go, inspiring things to do and supportive people to talk to.

Monkstown Boxing Club is a company limited by guarantee, incorporated on 21 February 2006 and registered with the Charity Commission Northern Ireland on 15 October 2021. It is governed under the company's Memorandum and Articles of Association.

All of Monkstown Boxing Club's governance is exercised by the Trustees, who are individuals whose extensive experience at senior executive and management levels in commerce, industry, civil service, academic and community service is made available to Monkstown Boxing Club on a voluntary and strongly committed basis. New Directors are appointed following an interview and assessment process. Following appointment, new Directors receive induction briefings on the strategic plan and financial activities of the company.

Day-to-day management of the project is headed by the Project Director, assisted by the Lead Youth worker and education/ youth team. Issuing from this central leadership team, there is a line management structure that links and evaluates personnel and work progress in various projects and activities. The Project Director reports directly to the Chair and Trustees.

Administration and accounting oversight operate through monthly reports on income and expenditure with the Finance Manager and Project Lead's. These include not only the immediate and cumulative past figures, but budgetary forecasts. This information is approved by the Project Director and Youth Programmes Lead.

Risk Management

The Trustees have examined the major strategic, business, and operational risks which the charity faces and confirm that systems have been established to enable regular reports to be produced so that necessary steps can be taken to minimize those risks. During this financial year our Financial Protocols and Safeguarding Policy has been updated. A risk register is now included as a standing agenda at Board meetings.

Public Benefit Statement

The charity's beneficiaries are socially disadvantaged young people and the wider community. The public benefits of the charity include increased knowledge, skills and qualifications and improved employability for socially disadvantaged young people, increased knowledge, skills and work-related experience and improved employability and increased self-esteem and confidence for the workplace and increased access to further education, training and employment

**Notes to the financial statements
Year ended 28th February 2023**

1. General information

The company is a private company limited by guarantee, registered in Northern Ireland. The address of the registered office is Cashel Drive, Monkstown, Newtownabbey, BT37 0EY.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer (usually on despatch of the goods); the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

**Monkstown Boxing Club
Company limited by guarantee**

**Notes to the financial statements
Year ended 28th February 2023**

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Where investments in non-convertible preference shares and non-puttable ordinary shares or preference shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in profit or loss. All other such investments are subsequently measured at cost less impairment.

Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Other financial instruments are subsequently measured at fair value, with any changes recognised in profit or loss, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

Since 2012 through investment from a range of partners, the club has been delivering an award winning education support programme for young people disengaged from mainstream education as well as providing young men's and young women's groups, a breakfast and after school's club, youth leadership and employability programmes. Called 'In Your Corner' the project works with over 250 young people on a weekly basis accessing services and support.

As a result of Covid-19, the club now provides a wide range of family and children's services to the local community including a food-bank service to families affected by poverty and a full-time Counsellor. It is this demand for place-based services that has driven our vision for a new flagship Community Wellbeing Hub in Monkstown that will contribute to economic regeneration in the area and provide children, young people, and adults with somewhere to go, inspiring things to do and supportive people to talk to.

Monkstown Boxing Club is a company limited by guarantee, incorporated on 21 February 2006 and registered with the Charity Commission Northern Ireland on 15 October 2021. It is governed under the company's Memorandum and Articles of Association.

All of Monkstown Boxing Club's governance is exercised by the Trustees, who are individuals whose extensive experience at senior executive and management levels in commerce, industry, civil service, academic and community service is made available to Monkstown Boxing Club on a voluntary and strongly committed basis. New Directors are appointed following an interview and assessment process. Following appointment, new Directors receive induction briefings on the strategic plan and financial activities of the company.

Day-to-day management of the project is headed by the Project Director, assisted by the Lead Youth worker and education/ youth team. Issuing from this central leadership team, there is a line management structure that links and evaluates personnel and work progress in various projects and activities. The Project Director reports directly to the Chair and Trustees.

Administration and accounting oversight operate through monthly reports on income and expenditure with the Finance Manager and Project Lead's. These include not only the immediate and cumulative past figures, but budgetary forecasts. This information is approved by the Project Director and Youth Programmes Lead.

Risk Management

The Trustees have examined the major strategic, business, and operational risks which the charity faces and confirm that systems have been established to enable regular reports to be produced so that necessary steps can be taken to minimize those risks. During this financial year our Financial Protocols and Safeguarding Policy has been updated. A risk register is now included as a standing agenda at Board meetings.

**Notes to the financial statements
Year ended 28th February 2023**

1. General information

The company is a private company limited by guarantee, registered in Northern Ireland. The address of the registered office is Cashel Drive, Monkstown, Newtownabbey, BT37 0EY.

2. Statement of compliance

These financial statements have been prepared in compliance with the provisions of FRS 102, Section 1A, 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through profit or loss.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Turnover

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer (usually on despatch of the goods); the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

**Notes to the financial statements
Year ended 28th February 2023**

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Basic financial instruments are initially recognised at the transaction price, unless the arrangement constitutes a financing transaction, where it is recognised at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Debt instruments are subsequently measured at amortised cost.

Where investments in non-convertible preference shares and non-puttable ordinary shares or preference shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in profit or loss. All other such investments are subsequently measured at cost less impairment.

Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Other financial instruments are subsequently measured at fair value, with any changes recognised in profit or loss, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics.

Any reversals of impairment are recognised in profit or loss immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.
