A statement that the Trustees have had regard to the Commission's Public Benefit requirement statutory guidance

"Benefit is the way in which an organisation's purposes are beneficial and the extent to which they are beneficial.

For a charity's purpose to satisfy the benefit element, the benefit must have three key features. Benefit must:

- flow from the charity's purposes
- be capable of being demonstrated
- be beneficial, not harmful."

"For an organisation to be a charity, not only must all of its purposes fit within at least one of the descriptions of purposes, but all of its purposes must be for the public benefit. This means that each of the purposes must fulfil the criteria set out above for the two elements of public benefit to be satisfied."

"In practice, this means that a charity must be able to show that its purposes:

1. Can provide a benefit, and
2. This benefit is to the public." All Trustees are aware of this.
