TAYSIDE INSTITUTE COMMUNITY CENTRE (SCIO)
FINANCIAL STATEMENTS FOR THE YEAR TO 31 MARCH 2024
Introduction

The Tayside Institute Community Centre was built in 1923 by the Tayside Floorcloth Company to provide education, exercise and entertainment for the people of Newburgh. It has been the centre of the community ever since. For more than 40 years it has been run as a charity and managed by a voluntary committee of trustees and a handful of part time staff, with some financial and moral support from Fife Council.

As a charity registered in Scotland, the TICC was granted permission by OSCR, the Office of the Scottish Charity Regulator, in the Spring of 2023 to become a Scottish Charitable Incorporated Organisation (SCIO). A new charity number was granted and one of the requirements was to obtain new bank accounts. This and the setting up of online banking for those accounts proved to be a long and frustrating process, so that we were not ready to transfer the funds to the new accounts until February 2024.

At the same time we were in protracted negotiations with the Council over the lease of the building for the next 20 years. I am glad to report that a compromise has been reached and we await the formal document to sign.

The inflation in wage, gas and electricity costs over the last two years, the effect of the pandemic on many of our previously regular customers, and the limitations on the annual recurring grant from Fife Council have resulted in a decline in our funds. We were lucky to have built up substantial reserves over the previous years, but our financial projections in early 2023 were gloomy. Since then, gas and electricity costs have gone down and our trustees and staff have been working extra hard, for no increase in pay, to create new fundraising events. As you will see in the detail to the Project accounts, we have also taken the Foodbank in-house and have been working with the Council to set up new child care activity sessions. As a result, our financial outlook is somewhat better, but our Main account reserves are still projected to be used up by the end of the year.

With the transition to being a SCIO in February, the charity and SCIO accounts are presented as 'Merged' on the summary pages, and the detail pages separate the two sets of accounts. Although £5,000 was left in each of the charity accounts temporarily as a buffer against delayed payments. only a few transactions occurred after January 31st, which are shown under '2 months Old account transition'.

These accounts are presented in a standard format, and as such they are as dry as dust to any but a professional accountant. They are also more complicated than usual due to the transition to SCIO and due to there being more discrete project incomes and expenditures. The last page simplifies them graphically in total cash terms for the year.

April 2024

INDEPENDENT EXAMINER'S REPORT TO THE TRUSTEES OF TAYSIDE INSTITUTE COMMUNITY CENTRE (SCIO)

The charity's trustees are responsible for the preparation of the accounts in accordance with the terms of the Charities and Trustee Investment (Scotland) Act 2005 and the Charities Accounts (Scotland) Regulations.

My examination is carried out in accordance with Regulation 11 of the Charities Accounts (Scotland) Regulations 2006. An examination includes a review of the accounting records kept by the charity and explanations obtained from the trustees for any unusual items therein.

In the course of my examinations no matter has come to my attention which gives me reasonable cause to believe that in any material respects the requirements to keep accounting records in accordance with Section 44(1) of the 2005 Act and Regulation 4 of the 2006 Accounts Regulations have not been met.

In my opinion the accounts have been prepared in accordance with the records maintained and comply with Regulation 8 of the 2006 Accounts Regulations.

Funds to be transferred to SCIO in April

Values transferred to SCIO on 1st
February 2024 less £5,000 transition
buffer left in Main account

* excludes £100 from each account sent
to open SCIO accounts in Dec 2023

The Project Account is a separate bank account which was set up to hold funds which had been granted, fund-raised or allocated for specific projects.

The funds may have come from Fife Council, from other grant providers, from individual donors, from fundraising events or from Main Account reserves.

As such, these funds needed to be ring-fenced and used only for their intended specific purpose.

Within the Project Account, specific book-keeping has been maintained for each project.

PROJECT DESCRIPTIONS

The **Food Bank** was set up in a separate building in the garden of the TICC, but has been brought into the main building and has received grants to purchase food and domestic supplies. It runs on Monday mornings and Thursday afternoons and is very well used. The demand has increased steadily since it was brought in to the TICC. A refrigerator and a freezer (donated) have been added. In the early stages food supplies were bought by staff or volunteers using their own funds or cash from the Main account.

The **Equals Money** card is a prepaid debit card in a separate bank account which allows pre-set limited weekly expenditure on-line or at point of sale. It was obtained to facilitate purchases of supplies for the Foodbank by our volunteer William Simpson without any financial involvement on his part other than use of the card. The expenditure limits are set by the Treasurer and all transactions are visible to the Treasurer. It worked well for small local purchases, or for larger online purchases for delivery from major supermarkets. However, as transport is needed to reach budget supermarkets, the food buying was taken over by our trustees Pat Dalrymple, Avril Blyth and Shona Gray using their own cards and claiming reimbursements with receipts.

The **Heat Hub** operated during the colder months providing soup, bread, tea and coffee and has received grants to cover allocated wages, overheads and expenses.

Summer Camp and Homework Club ('NASAH'): Following the closure of the DINO out-of-school club we operated a Summer Camp for children during the school holidays, run by youth club and ex-DINO staff. Wages were administered by us and deducted from the Fife Council grant or claimed back from Fife Council. The Homework Club was a similar arrangement in term time during two evenings a week.

CLD (Community Learning & Development): Fife Council money for adult learning projects. It was used in 2023 to support an Old Folks Outing organised by the Thursday Club.

Youth Clubs: The Youth Clubs used to have a separate bank account which they managed. The funds have now been brought into the Project Account.

Cycling: This project initiated by our CLD officer aimed to introduce members of the public and their families to the benefits of cycling, but since his reassignment there has been no activity. The bicycles are recorded as a fixed asset and are kept in storage, and so must be insured. The insurance policy supplement for the bicycles is transferred to the main account.

Boiler replacement: A grant of £15,000 was received from the Council in 2017-18 for replacement of obsolete boilers. Recently two of our 3 boilers have been shut down and a full overhaul is to be undertaken. Following an adverse report of inspection on our hard wiring, a second detailed inspection and repairs had to be commissioned and we were authorised to use the Boiler fund to pay for it.

Business Development: During 2020 a Fife Council Business Development grant of £25,000 was received to support the recovery of the business after Covid. At the time our Main Account reserves were adequate and £20,000 of this was placed in the Boiler Fund. In view of the financial outlook in 2023-24 the £20k was separated and re-designated under its original title. Some of this money has been transferred into the Main Account temporarily to act as a buffer during the transition to SCIO, and into the SCIO project account to open it. It is intended that these transfers will be reversed prior to the year end, and some will be spent on developing the business, but the Business Development fund will be held mainly as a Reserve in view of continuing deficits projected in the Main Account during 2024-25.

Four projects were dormant during the period and had no incomings or outgoings. The balances in these accounts are: **Back Garden** £532.92, **IT project** £450, **Stairlift** £2524.77, **Bike access path** £1509.94. A 'Growzone' project is currently at the public consultation stage and may attract funding but may also use the Back Garden and Bike Access funds.

* The supplies for the Foodbank were bought initially using the main account debit card at point of sale or to obtain a float for cash purchases. The main account was compensated by transfers from the Foodbank fund in the Project Account. Later purchases were made using either a dedicated prepaid debit card ('Equals Money') or personal credit cards and reimbursed direct from the Foodbank fund in the project Account.

2023-24 FINANCIAL STATEMENT:

NOTES TO THE ACCOUNTS FOR THE YEAR TO 31 MARCH 2024

Page 13

ACCOUNTING POLICIES

These financial statements have been prepared under the historical cost convention. The TICC Main Account column represents the operating account through which most of the regular transactions are processed. (Unrestricted Funds)

The 'Project Account' shows income and expenditure on specific projects. (Restricted and Designated Funds)

The FoodBank, Heat Hub and Youth Clubs have been included in the Project Account in order to keep their funding separate from our normal operating costs. The Food Bank although supplied by public donations of goods, now requires additional supplies to be purchased. However, the Heat Hub and Youth Clubs require frequent small cash expenditures and so floats to cover these have been transferred to the main account so that cash could be drawn. Expenditures against each of these funds is reconciled against receipts.

During the year, approval was received from OSCR to become a Scottish Charitable Incorporated Organisation (SCIO). New bank accounts were created, suppliers were notified and the official transition occurred on February 1st 2024. However, the bank's limitation on asset transfers on one day, and the need to accommodate charges which overran the switch date, meant that the actual transition was completed over the remaining 2 months of the financial year. Accordingly, the old and new accounts shown are separately to give as much clarity as possible.

Tayside Institute Community Centre Annual Report

2023 - 2024

Chairperson's Report

This past year has been another one of great change for the TICC

At the end of January, we converted to a Scottish Charitable Incorporated Organisation (SCIO), which involved a great deal of extra administration from our staff and voluntary committee, in particular, our Treasurer. We have introduced a computerised accounting system, XERO, which is designed to reduce staff hours required for wages calculations and regular tracking of daily transactions etc. Our revered treasurer has decided it is time to retire and whilst we acknowledge he is irreplaceable, our introduction of the XERO system is probably as close as we are going to get in compensation for the treasurer's departure.

We now have a member of staff whose specific purpose is to promote activity within the centre and source external funding however this search for external funding is being gravely restricted by the fact that we were obliged by Fife Council to transfer the organisation to a SCIO status to enable the establishment of a new lease.

The new lease is still with Fife Council Legal Dept. awaiting alteration to incorporate previously agreed terms and is therefore not yet available to TICC for confirmation and signature which is proving to be an obstacle when applying for external funding in two respects.

- 1) Funders want to see that we are in possession of a long-term lease (which we are not).
- 2) The conversion to a SCIO which we were driven to by promises of a lease and funding opportunities has proved to be another obstacle as funders want to see results of two years operation which we do not have as the SCIO is a new entity and there is no interest in our previous operations.

It will therefore be necessary that Fife Council compensate the centre financially to enable the continued provision of services despite the shortfalls in funding ability that is resultant from the driven change in structure.

TICC ability to provide services is subject to:

Council Grants

Public Usage

Fife Council honouring sub-let agreements that have been in existence for many years.

Availability of suitable staff

Access to external funding.

Affordable utility costs.

Suitable members of the public with diverse and applicable skills being prepared to work as a management committee.

A workable maintenance regime being available from Fife Council that recognises the voluntary status of the management committee and recognises the degree of social service the TICC provides at a fraction of the cost that would face Fife Council if they required to take the services in-house.

We have had the advantage of some exceptional hires by NHS which are going to be repeated in the Autumn however that alone is not enough to sustain the TICC in its present form.

If anyone has ideas about boosting the usage of the centre then please either speak to staff, speak to a committee member or better still turn up as a committee member.

There are some exceptionally difficult times ahead that we need to unite as a community to overcome.

TREASURER'S REPORT FOR THE FINANCIAL YEAR 2023 -24

The Tayside Institute Community Centre was built in 1923 by the Tayside Floorcloth Company to provide education, exercise and entertainment for the people of Newburgh. It has been the centre of the community ever since. For more than 40 years it has been run as a charity and managed by a voluntary committee of trustees and a handful of part time staff, with some financial and moral support from Fife Council.

As a charity registered in Scotland, the TICC was granted permission by OSCR, the Office of the Scottish Charity Regulator, in the Spring of 2023 to become a Scottish Charitable Incorporated Organisation (SCIO). A new charity number was granted and one of the requirements was to obtain new bank accounts. This and the setting up of online banking for those accounts proved to be a long and frustrating process, so that we were not ready to transfer the funds to the new accounts until February 2024.

At the same time we were in protracted negotiations with the Council over the lease of the building for the next 20 years. I am glad to report that a compromise has been reached and we await the formal document to sign.

The inflation in wage, gas and electricity costs over the last two years, the effect of the pandemic on many of our previously regular customers, and the limitations on the annual recurring grant from Fife Council have resulted in a decline in our funds. We were lucky to have built up substantial reserves over the previous years, but our financial projections in early 2023 were gloomy. Since then, gas and electricity costs have gone down and our trustees and staff have been working extra hard, for no increase in pay, to create new fundraising events. As you will see in the detail to the Project accounts, we have also taken the Foodbank in-house and have been working with the Council to set up new child care activity sessions. . As a result, our financial outlook is somewhat better, but our Main account reserves are still projected to be used up by the end of the year.

With the transition to being a SCIO in February, the charity and SCIO accounts are presented as 'Merged' on the summary pages, and the detail pages separate the two sets of accounts. Although £5,000 was left in each of the charity accounts temporarily as a buffer against delayed payments, only a few transactions occurred after January 31st, which are shown under '2 months Old account transition'.

These accounts are presented in a standard format, and as such they are as dry as dust to any but a professional accountant. They are also more complicated than usual due to the transition to SCIO and due to there being more discrete project incomes and expenditures. The last page simplifies them graphically in total cash terms for the year.

CLD Workers AGM Report- 27TH June 2024

After having just moved to the area in October 2023, it is my pleasure to report on the successes and challenges that have stood out over that time. The past months have seen a lot of work looking at what we have in place, from our strengths to our threats and what opportunities we can see to develop the Centre and the activities we offer in response to our communities need. This now sees us respond to that need to get the Centre, the new programmes, and long-term activities of the Trustees, back up to full speed, as we now embark on a number of new core projects, including Our Grow Zone idea and the YP Bike Project. From my conversations with Centre staff, community residents and Council colleagues there is a real sense of excitement returning to the Centre. Looking to the future, I hope that the work of the Trustees will continue to support community activity, support young people and a new focus on developing the building, making best use of our resources, our people, as well as the funding we receive and the finance we generate. Our challenge in achieving this, is to attract new committed Trustees, to be brave in the development, management, and promotion of new projects and to make sure they repair that roof. With the Staff team now in place, we can make good the time we now have to get things done the way it should. Improving all aspects of the Centre of what can be achieved when people come together for the benefit of their community. The annual report highlights the excellent work and positivity across the program, and I take this time to congratulate all those involved.

Youth Work

Our Youth Group has run over the last year with Community Learning and Development leading with YW Staff in place and funding located to support local staff to provide opportunities for young people within informal learning. The project provides young people from Newburgh with an opportunity to gain experience new skills, build relationships and make new friends. 8 to 10 Young people attend on a regular basis, with two young volunteers being supported by staff to develop their own skills and gain valuable work-related experience as they prepare to leave school. The young people really enjoy this group, and with the support of Youth Work staff have started looking at accreditation as part of the groups and young people's development.

We are very appreciative of all the support we receive from the Centre staff and a massive thank you to the TICC Trustees for supporting this project.

Job Club/Welfare Rights/Digital Skills

Community Job Clubs run every Tuesday at TICC. These are supported by two Welfare Support Assistants and a Digital Skills Tutor. Those who attend receive support in areas of employability, income maximisation, and welfare related issues. Throughout 2023/24, TICC Job Club has supported individuals to.

- Access on-line job-searches and other learning and employability resources
- Make online job application
- Access their journal and other benefit commitments and update these as required
- Create CVs and understand interview techniques

Food Bank

The Food Bank with [REDACTED] [REDACTED], and their volunteers hard work, continues to meet the needs of the community within a well utilised community resource. The Howe of Fife has a high percentage of Low-Income Households whose plight might be a little more difficult if this resource was not so well supported and managed by the TICC trustees. Looking to the future and the links this will develop with the Grow Zone and School can only help this Community resource support those Community residents in most need.

Grow Zone

Newburgh TICC Trustees have started work to develop a bit of land at the back of the Centre that has laid dormant for a number of years. After an initial successful Community meeting and a Community Consultation exercise, plans are now in progress looking at an exciting opportunity to develop this into an aspiring local resource. Development in the future will link the local Primary School to the Centre with young people taking part in outside learning linking into environment and sustainability. Plans are currently

in place to now design the area with local young people playing an active part in this and what the Grow Zone will be called.

SLA

The Service Level Agreement for 23/24 was successful and funding was granted by Fife Council. This came after the 3 year audit undertaken by Fife Council noted that all parameters of previous funding in outcomes and outputs had been met fully. The Trustees are committed to their programme of continuous improvements to the facilities at the Community Centre, to ensure staff, volunteers, and user groups have access to a high standard of provision and quality services.

Newburgh Foodbank – June 2024

The foodbank continues to operate within the TICC albeit only on a Monday from 10 am – 11am, whilst we have our regulars it is felt that there are families in the community who either do not know the foodbank exists or are reluctant to attend.

The food share products that we get donated from the Co-op are well received and appreciated by all. Donations from the Church and the school at Christmas made a big difference over that period as did donations from the wider community.

Ladies Social Club – June 2024

Newburgh Ladies Social club meet every Monday from 2-4pm through October to April in the Learning Centre. There's a lot of chatting some tea and biscuits and some of us get round to knitting or crochet!

We currently average 12 people per meeting and we are always on the lookout for anyone who would like to join.

We have been unable to fundraise because of covid for the past few years but we do have some wool and needles available for anyone that would like to join.

Thursday Club – June 2024

This year we had our Christmas meal in the Victoria Hotel, Kirkcaldy which was enjoyed by all. Margo and Avril did a fantastic job catering for our Annual Burns Supper, we had a bring and buy sale in February which really helps us to pay our entertainers and trips. We had a trip to Stirling and had a meal at King Robert hotel and one to Aberdeen then a meal at George Hotel in Montrose.

Chess Club – June 2024

Dear [REDACTED],

Please find below a brief contribution on behalf of the chess club. I am happy for you to edit it in any way you wish to suit the format of the annual report.

Grey cells to the fore! Playing chess is an excellent way of keeping your mind alive and alert. Every Thursday from roughly 11am to 4pm a group of one lady and six gentlemen meets in the Institute to grapple with the ancient game.

Contrary to the popular conception the atmosphere is informal and relaxed, with a good deal of light-hearted banter and a modicum of chat about other matters: altogether a very sociable occasion.

Whether you are a beginner or a seasoned player, you would be very welcome to join our enthusiastic small group. Or perhaps you have a relative or friend who lives locally and is unaware of this opportunity?

Further information is available from [REDACTED]

Best wishes,

[REDACTED]

Report for Tayside Institute Community Centre - AGM -June 2024

Adults come to ABE:

- To improve their job prospects, write a CV or fill in a job application
- To cope with everyday reading, writing, number and money skills
- To help their children or grandchildren
- To work on IT skills, using a computer and developing digital skills
- To improve their confidence
- To gain national qualifications for work or to access college
- To improve budgeting skills and help deal with changes due to rising costs/inflation
- To cope with the challenges and to learn strategies to help with Specific Learning Difficulties such as dyslexia and dyscalculia

Adult Basic Education (ABE) can develop and deliver courses to suit the needs of individual adults in small, informal groups. We work in a non-formal learning environment where every learner has an individual learning plan and works towards their own personal goals.

ABE have been delivering a mixed literacies group in Newburgh for over 7 years. In the last few years there has been a focus on people using technology. This can be the networked computers in the Learning Centre, or their own laptops, tablets or mobile phones and we access the internet using mobile Wi-Fi or the Library Wi-Fi. Since Lockdown, digital skills have become ever more important and often necessary to participate in everyday life. We have recently helped learners to send emails and attachments for business purposes as well as connecting with family members on the other side of the world. We also encourage progression and one of the successes of this year is to have helped learners enrol and complete an online Data Science course with Fife College. Learners continue to work towards SQA qualifications and Kirsty continues to volunteer with us and is our resident iPad expert.

As well as helping our learners with a range of skills, we have also been there to help with other issues and have assisted people to access Newburgh Settlement Trust funding to secure funds for a variety of reasons.

The classes run for 2 hours on a Thursday from 10 -12. However, we are always flexible and address the needs of those attending so if people are only able to attend every second week

or for 1 hour, we are happy to accommodate this. There are spaces available, and this is a great opportunity to learn within the local community.

For further information, please contact: [REDACTED] ABE Group Tutor
Email: [REDACTED]

The Newburgh Wellbeing Choir – June 2024

The Choir meets weekly in the TICC and has a steady attendance from Newburgh, Abernethy and the local area.

Members are keen to see the choir continue and the special fund-raising activities attracted good support, including the coffee morning in October, a Musicals sing-a-long both of which have been well supported by member's families & friends. We also held a Christmas sing-along when the local Pensioners Club joined us one afternoon in December for Christmas carols and mince pies.

The singing has improved over the years, thanks to the encouragement of our musicians, and our ever-expanding repertoire which includes some lovely harmonies.

We are very grateful to have use of the TICC as the perfect venue for the group and also all the local volunteers who help organise the events and provide refreshments too!
