Activities

Activities: 'It carries out activities or services itself'

Purposes: 'the advancement of education', 'the provision of recreational facilities, or the organisation of recreational activities, with the object of improving the conditions of life for the persons for whom the facilities or activities are primarily intended'

What the charity does: To provide a stimulating and social environment for all pre-school children and a social meeting place for their parents and other guardians. We do this by providing a safe environment for them to meet weekly. The children can play with the toys provided and parents and guardians can chat. There is a snack provided for the children and tea/coffee for the adults. We try to utilise services such as Bookbug and PEEP sessions and we organise Christmas and Halloween parties for the children.

Beneficiaries: 'Children or young people'

Objectives: To provide in the interests of social welfare, a good environment for babies and children up to the age of three by providing mothers with such children a means of alleviation of stress by mutual support where such support is not readily available from within the community and by providing play facilities for the children in which the mothers can participate as will improve the physical and intellectual development of the children and strengthen the relationship between mother and child.

Geography

- **Main operating location:** Shetland Islands
- **Geographical spread:** A specific local point, community or neighbourhood
