Activities

Activities: 'It makes grants, donations, loans, gifts or pensions to individuals','It makes grants, donations or gifts to organisations'

Purposes: 'the advancement of education','the advancement of health','the advancement of animal welfare'

What the charity does: The BWAH gives grants to individuals or institutions that are undertaking research projects investigating wildlife health issues. The main proposes are the advancement of education, animal welfare and scientific knowledge about the health of British wild animals.

Beneficiaries: 'Other defined groups','No specific group, or for the benefit of the community'

Objectives: The objective of the British Wildlife Health Association is to aid the conservation of British fauna by the study and investigation of wildlife disease. (In this context 'wildlife' means free-living fauna). In furtherance of the above objective, the Association shall award grants to research workers, veterinarians and other interested parties to study, investigate and publish the results of such investigations so that a better understanding of the diseases of wild animals may be brought about and the health and welfare of such fauna may be protected to the benefit and to the consequent benefit of humankind.
