What the charity does: The aims of M&DSP are to meet the social, swim learning, leisure and recreational needs of the local community as well as visitors to the area. The Centre is a key amenity, and one of the few wet weather attractions for tourists. Mallaig is a medium sized fishing port, in an area with many rivers and lochs. The primary objective of the facility, when it was built almost thirty years ago, was to provide swimming tuition for pre-school and school age children to enable them to enjoy water in safety. The pool has proven highly successful in meeting this objective and today offers comprehensive tuition with skilled teachers across primary and secondary school, as well as private lessons for all age groups during holiday periods. The business has since strived to diversify as a hub for health and fitness. The facility encourages an active lifestyle among the local population and works closely with the public sector, particularly schools, within the area.
