Activities

Activities: 'It carries out activities or services itself'

Purposes: 'the prevention or relief of poverty', 'the advancement of education', 'the advancement of health', 'the advancement of citizenship or community development', 'the advancement of the arts, heritage, culture or science', 'the advancement of environmental protection or improvement'

What the charity does: Working in Nepal for over 25 years we've been involved in many different projects. In the early years the emphasis was towards health care and renewable energy schemes: the emphasis is now more towards education and healthcare and in particular the training of healthcare workers. Community engagement is at the heart of all of the projects we undertake. For a project to be long term sustainable the local community has to take ownership of it. Our 2 current projects are the Humla Education Project (the repair of various government schools that are in a poor condition to allow the schools the opportunity to provide classes on a regular basis in a safe environment) and General Healthcare (running a sustainable healthcare programme organizes the supply and dispensation of basic medicines and running medical awareness and hygiene programmes).

Beneficiaries: 'People with disabilities or health problems', 'People with a particular ethnic or racial origin', 'No specific group, or for the benefit of the community'

Objectives: The company's objects are: (1) To relieve poverty among the residents of Nepal. (2) To advance education among the residents of Nepal. (3) To preserve and promote the traditional culture of Nepal. (4) To protect and preserve for the benefit of the general public the natural environment of Nepal.

Geography

- **Main operating location:** City of Edinburgh
- **Geographical spread:** Overseas only
