Activities

Activities: 'It carries out activities or services itself'

Purposes: 'the advancement of education', 'the advancement of citizenship or community development', 'the advancement of the arts, heritage, culture or science'

What the charity does: The charity was set up in 1995 to continue the work of the Edinburgh Puppet Company and promote puppetry in all its forms. These are not only indoor performances but also outdoor installations and pageants to give as wide an audience as possible the experience of puppet theatre. Vision Mechanics uses both traditional forms and technological innovation in these unique events. An important aspect of the charity is the training of puppeteers and makers, valuing the varied skills that free-lance artists, writers, musicians and technicians bring to the productions. Workshops give members of the public the opportunity to participate in the making of puppets.

Beneficiaries: 'Children or young people', 'No specific group, or for the benefit of the community'

Objectives: To advance the education of the public in the arts and in particular the art of puppetry through performances and other related activities

Geography

- **Main operating location:** City of Edinburgh
- **Geographical spread:** UK and overseas
