Activities

Activities: 'It carries out activities or services itself'

Purposes: 'the prevention or relief of poverty', 'the advancement of education', 'the advancement of health', 'the advancement of environmental protection or improvement', 'the relief of those in need by reason of age, ill-health, disability, financial hardship or other disadvantage'

What the charity does: We promote social justice by supporting people in Glasgow with enduring mental health issues and people who suffer from isolation and loneliness. We help and encourage people to gain the confidence to enable their full social and civic participation in their communities. We do this through the provision of inclusive group-based learning opportunities. Integration through innovation is key to our philosophy. Tackling isolation at its roots we provide inclusive learning opportunities in therapeutic gardening, arts and crafts, digital inclusion opportunities and music classes. Participation is within our community-based setting where people can gain a variety of new and exciting skills and where our learning opportunities also act as a conduit for fostering friendships. Our objective is to bring about social justice by enabling people suffering exclusion to realise their full potential.

Beneficiaries: 'People with disabilities or health problems'

Objectives: (a) To promote the welfare of persons in Glasgow and its environs who are either disabled or have had long term mental health or addiction problems by encouraging their re-integration into the community both through formal and informal training and education (b) To relieve the poverty and distress of

the aforesaid persons by aiding them to advance into employment and by pursuing any other objects for the benefit of such persons which are now or hereafter may be deemed to be charitable in law (c) To preserve, restore and improve the environment in any part of Scotland ('the Operating Area') through the provision, maintenance and/or improvement of public open space and other public amenities and other environmental and townscape regeneration projects, and in so doing, to seek wherever appropriate (but subject to appropriate safeguards to ensure that the public benefit so arising clearly outweighs any private benefit thereby conferred on private landowners) to carry out works of reclamation, remediation, restoration and other operations to facilitate the use for those purposes of land whose use has been prevented or restricted because of previous use (d) To provide within the Operating Area facilities for recreation and other leisure time occupation available to the public at large with a view to improving their conditions of life (e) To promote for the public benefit the preservation (whether wholly or in part) of buildings and other structures of historic and/or architectural significance located within the Operation Area

Geography

- **Main operating location:** Glasgow City
- **Geographical spread:** Wider, but within one local authority area
