Activities

Activities: 'It carries out activities or services itself'

Purposes: 'the provision of recreational facilities, or the organisation of recreational activities, with the object of improving the conditions of life for the persons for whom the facilities or activities are primarily intended', 'the advancement of environmental protection or improvement'

What the charity does: Leadburn wood is an area of former conifer plantation which was clear felled in 2001-2002. Friends of Leadburn Community Woodland was set up to help create a pleasant and varied location for community use, by planting more than 10000 native trees, restoring two raised bogs, establishing large ponds and developing and maintaining a path network.

Beneficiaries: 'No specific group, or for the benefit of the community'

Objectives: To manage community land and associated assets for the benefit of the Community and the public in general as an important part of the protection and sustainable development of Scotland's natural environment, where 'sustainable development' means development which meets the needs of the present without compromising the ability of future generations to meet their own needs.

Geography

- **Main operating location:** Scottish Borders
- **Geographical spread:** A specific local point, community or neighbourhood
