Activities

Activities: 'It carries out activities or services itself'

Purposes: 'the advancement of education', 'the advancement of health', 'the relief of those in need by reason of age, ill-health, disability, financial hardship or other disadvantage'

What the charity does: Newton Dee is a community where adults with special needs and coworkers live, work, and grow together. We form lifelong friendships and bonds that build and strengthen our community, enabling us to support each other in living a full and healthy life. Our coworkers and the people we support live in communal houses together, and work in our support workshops together. This allow us to build an invisible support network into our community that allows the people we support to be more independent than they could achieve living on their own.

Beneficiaries: 'People with disabilities or health problems'

Objectives: The Charity's objects are for the public benefit, to relieve sickness, promote good health, provide care to and advance the education and training of people with a disability (whether mental or physical), the young, the old, or people otherwise in need, in accordance with the Steiner Principles , particularly (without limitation) by the establishment and maintenance of a community or communities that includes shared community households, residential households, day centres, kindergartens, or other types of social and/or educational facilities , in which beneficiaries live and/or work and/or to which they otherwise resort , in community with persons providing support.
