Activities

Activities: 'It carries out activities or services itself'

Purposes: 'the advancement of health'

What the charity does: Foos yer Doos Sing Song Club is a singing group for people with neurological conditions like Parkinson's, MS, MND, Stroke and Dementia., and their friends and families. In all these conditions the voice can be affected. We sing for the therapeutic benefits of Singing, to preserve and strengthen the voice, lift the mood, combat isolation and loneliness and to trigger memories. We are not a performance group, no singing ability is required.

Beneficiaries: 'People with disabilities or health problems'

Objectives: The purpose of the group is to provide individuals with neurological conditions (for example: dementia, motor neurone disease, multiple sclerosis, Parkinson's disease or stroke) and their carers with regular opportunities to sing, to have fun and to socialise with others in similar circumstances.

Geography

- **Main operating location:** Aberdeenshire
- **Geographical spread:** Wider, but within one local authority area
