BSCI/BSCCT

TRUSTEES' REPORT
31 December 2026

The Trustees are pleased to present their report and accounts of the charity for the year ended 31 December 2025.

BSCI/BSCCT is an unincorporated charity, governed by a constitution adopted 13 September 2011 as amended 8 September 2015.

Public Benefit
The Society has referred to the Charity Commission's guidance on public benefit when reviewing our aims and objectives and in planning our future activities.

The objectives of the society are to:

• Promote the highest standards of practice of cardiac imaging in the British Isles

• Promote education, training and the dissemination of scientific evidence in all aspects of cardiac imaging

• Advise the Royal College of Radiologists and the British Cardiovascular Society on cardiac imaging

• Nurture and evolve the links between the cardiology and radiology communities and the patients we serve.

The Society has shown continued growth, reflecting the hard work of its trustees and many of its members. The BSCI/BSCCT has continued to grow its repository of online educational content for members of the Society and provides access for our trainee members to an accredited learning resource that will enable them to meet the training requirements set out in the Royal College of Radiologists and Royal College of Physicians curricula. The BSCI/BSCCT has also contributed speakers to a few other conferences this year. The main achievements of the Society are as follows:

Guidelines, Standards & Research

• We have worked in collaboration with the British Heart Valve Society to prepare a standards document for the use of CT in Transcatheter Aortic Valve Implantation (TAVI) assessment for patients with severe aortic valve stenosis.

• We have worked in collaboration with the European Association of Cardiovascular imaging, the British Heart Foundation Clinical Research Collaborative and the BHF-MRC UK Cardio-IMID Network on two parallel surveys conducted in the UK and Europe about the use of cardiovascular imaging in cardio-rheumatology. The findings of this work were published in the Eur Heart J Imaging Methods Pract in 2026.

• We conducted a national audit about CT coronary angiography radiation doses in the UK. We have also conducted additional national surveys about practices and procedures for CT coronary angiography and the use of artificial intelligence in this setting. The findings of these projects are currently being analysed and prepared for publication.

• The BSCI sits on the British Heart Foundations Clinical Research Collaboration ensuring representation of cardiovascular imaging on the nationwide research agenda. Our Research leads have been involved as grant reviewers for the pump priming grants sponsored via the BHF which aim to fund

the earliest stages of research where larger projects are being planned but require pilot studies or priority setting exercises within the UK community to better design the study and position them for greater likelihood of success in future grant applications.

Education.

• The annual scientific meeting was held in Winchester in June 2026, attracting over 300 attendees. The meeting was preceded by dedicated course for Level I cardiac CT training, a dedicated course for Radiographers, and a level 1 nuclear cardiology course.

•BSCI held a dedicated study day about the use of imaging for diagnosis and management of cardiac amyloidosis in Oxford in March 2026.

• BSCI continues to host and record monthly webinars on a variety of imaging topics, presented by a range of excellent speakers (https://bsci.org.uk/webinars/), with these available on our moodle platform for those unable to attend at the time of the meeting itself.

• BSCI is providing fortnightly lectures on cardiac imaging as part of the Royal College of Radiologist seminar series for trainees

• The RCR Travelling Professor in Cardiovascular Imaging programme has travelled to multiple sites in the UK, taking great efforts to include Cardiology and Radiology trainees at all sites.

• BSCI subsidises and provides access to the Society of Cardiovascular Computed Tomography online Level 1 Cardiac CT training to UK cardiology and radiology trainees.

• We have organised a Level 1 cardiac CT course for the annual meeting of the British Cardiovascular society, as well as providing more advanced training at its 'imaging village'.

Accreditation

• The accreditation application process is now entirely electronic and has been running successfully for three years now. It replaces the previous application process which involved emailing the required documents to the secretariat.

• The application criteria and instructions with the required links are comprehensively provided on the website.

• The online process allows the applicant to log in to application portal where they can upload the documents into each domain. Further instructions are provided in the portal for the applicant's viewing. This has allowed the process to become more streamlined. Review of applications by the accreditation team is also more efficient through the online process.

• The numbers accrediting has risen reflecting the growing use of cardiovascular CT in clinical care, with 142 members accrediting in 2025, compared with 122 members accrediting in 2024, and 154 in 2023.

Trainee Committee

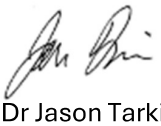

• Cardiology and Radiology trainee representatives continue to sit on the Executive Committee, representing the interests of Imaging trainees to the Society.

• The Trainee Committee also provides ongoing contributions to educational content for the BSCI website (Image of the Month, Podcast interviews) and public engagement with the society via social media.
BSCI/BSCCT has continued to increase its membership over the last year. In 2025, the Society comprised of 846 members; whilst 67 members chose not to renew their membership in 2025; 115 new members joined the Society in 2025.

Financial review

There is an improved result for this year with the accounts showing a surplus of £60,713 compared to surplus last year of £26,666. A focussed drive to engage with industrial stakeholders has increased sponsorship at the meetings, placing the society on more secure footing. As a result, the Society remains in a financially robust position to continue to deliver on its aims and objectives.

INDEPENDENT EXAMINER'S REPORT

TO THE TRUSTEES OF BRITISH SOCIETY OF CARDIOVASCULAR IMAGING (BSCI)

BRITISH SOCIETY OF CARDIAC COMPUTED TOMOGRAPHY (BSCCT)

ACCOUNTS FOR THE YEAR TO 31 DECEMBER 2025

Independent examiner's report to the Trustees of BSCI/BSCCT

I report to the trustees on my examination of the accounts of BSCI/BSCCT for the year from 1 January 2025 to 31 December 2025 which are set out on pages 6 to 9.

Responsibilities and basis of report

The charity's trustees are responsible for the preparation of the accounts in accordance with the terms of the Charities and Trustee Investment (Scotland) 2005 Act, the Charities Accounts (Scotland) Regulations 2006 (as amended) and the Charities Act 2011 for Charities also registered in England and Wales (CCEW). The charity trustees consider that the audit requirement of Regulation 10(1) (d) of the Accounts Regulations does not apply.

It is my responsibility to examine the accounts as required under section 44(1) (c) of the 2005 Act Scottish Charity Regulator (OSCR) and to state whether particular matters have come to my attention and for Charity Commission (CCEW) under section 145 of the 2011 Act. I have also followed the applicable Directions given by the Charity Commission under section 145(5)(b) of the Act .

Basis of Independent examiner's statement

My examination is carried out in accordance with Regulation 11 of the 2006 Accounts Regulations (OSCR). An examination includes a review of the accounting records kept by the charity and a comparison of the accounts presented with those records. It also includes consideration of any unusual items or disclosures in the accounts and seeks explanations from the trustees concerning any such matters. The procedures undertaken do not provide all the evidence that would be required in an audit and, consequently, I do not express an audit opinion on the view given by the accounts.

I have also followed the applicable Directions given by the Charity Commission (CCEW) under section 145(5)(b) of the Act

Independent examiner's statement

In the course of my examination, no matter has come to my attention.

- which gives me reasonable cause to believe that in any material respect the requirements:
- to keep accounting records in accordance with section 44(1) (a) of the 2005 Act and Regulation 4 of the 2006 Accounts Regulations and section 130 of Charity Act (CCEW) , and
- to prepare accounts which accord with the accounting records and comply with Regulation 9 of the 2006 Accounts Regulations
