Trustees' Annual Report

The Trustees present their report and accounts for the year ended 30 September 2024.

Sadly we note that one of our trustees, Rita Winters, passed away this year (August).

During the year to 30 September 2024, Govan Docks Regeneration Trust continued activities to fulfil our objectives as custodians of the Govan Docks. We have continued to collaborate with a number of organisations and participated in research and community engagement seminars.

We note that a planning application was submitted in December 2023 for residential development on part of the graving dock site. While collaborative organisations (namely CDPI and some local businesses and individuals whom we deal with) have submitted objections to the planning application, we have opted to maintain a neutral stance at this time and did not comment on the application. A decision on the planning application is expected to be made soon by Glasgow City Council.

Events and activities we have participated in this year include:

We have continued to monitor the situation with proposed developments and planning applications for the Govan Graving Docks. We have continued to participate in international research and networking activities relating to waterfront heritage alongside Clyde Docks Preservation Initiative (CDPI), Fablevision, and the University of the West of Scotland. We have continued to develop links with other local groups that are interested in the future of the graving docks and while we have continued to remain neutral on the proposed residential aspect of the proposed site developments, our outlook continues to be more aligned with those who oppose housing on the Govan graving docks.
