## Objectives and activities

The Coalition was set up with the aim of improving the lives of people in Scotland living with Attention Deficit Hyperactivity Disorder and their families and carers.

The objectives of the organisation are to:

- Provide support, education and practical advice to people living with ADHD and their families, including building the capacity of voluntary support groups across Scotland to run effective, sustainable support for people with ADHD and related conditions
- Advance the education of the general public in all areas relating to ADHD; and
- Advocate for people with ADHD in Scotland and their families, in particular by raising awareness of ADHD across Scottish public services (including the NHS, educational establishments, local authorities, the police force and the criminal justice system) in order to improve diagnosis, treatment and support for people with ADHD and related conditions. The establishment of the Coalition reflected recognition of a number of challenges: Support for people with ADHD is patchy. Leaders of local ADHD support groups often find themselves isolated and this results in a lack of sustainability.

The last year for the Coalition has been challenging and activities were restricted. The main achievements were as follows:

- We held our 2024 AGM on Tuesday 20<sup>th</sup> May 2025 that reviewed the achievements of the Coalition work throughout the year.

- Regular contact with Special Interest Group regarding adult ADHD with particular respect to services and medication crisis group
- Visit to Royal College of Psychiatrists
- Chair was co-author of the paper with UKADHD Partnership regarding assessment of ADHD in children and young people ([The ADHD Assessment Quality Assurance Standard for Children and Teenagers \(CAAQAS\) - PubMed](#))
