## Activities

---

**Activities:** 'It carries out activities or services itself'

**Purposes:** 'the advancement of education', 'the advancement of environmental protection or improvement', 'the relief of those in need by reason of age, ill-health, disability, financial hardship or other disadvantage', 'the advancement of animal welfare'

**What the charity does:** The 3 Rs Horse rescue Centre is based in SW Scotland and the largest horse rescue centre in this part of Scotland. We are approached by Police, SSPCA, Individuals, Owners and some local schools about some horses and ponies that have come across neglect, illness, abuse and we do our best to take what we can. All our work relies on donations and funding from the UK. All horses are receive VET, Farrier and other services required and are worked with by staff and volunteers. We also advertise regularly on socail media with horses for rehomeing and we can also provide transport. The attendance of children and young adults who have experienced emotional and behavioural difficulties and an increase of youngsters that no longer attend school has continued and we have been asked for larger numbers from schools, social work departments etc. We are engaged with local services and encourage all to become UpToDate with other services and schools in the area. We would like to increase numbers

**Beneficiaries:** 'Other defined groups'

**Objectives:** 4.1 The advancement of animal welfare by the rescuing of equines in need, where their health and wellbeing are threatened and bringing them to a place of safety. 4.2 The advancement of animal welfare via the rehabilitation of rescued equines, through groundwork, agility and ridden work. 4.3 The advancement of animal welfare through the rehoming of rehabilitated equines to suitably vetted homes. 4.4 The advancement of education for children and young adults who have experienced emotional and behavioural difficulties. We will teach life skills and encourage young people at risk to re-engage with services. This will

be achieved through Equine therapy and outdoor group work. 4.5 The advancement of environmental protection or improvement. We would achieve this by having designated projects teaching rural skills such as horticulture and the importance of incorporating land management and how this influences the ecosystem of the area by protecting wildlife and insects. 4.6 To advance the relief of those in need by reason of age, ill health, disability, financial hardship or other disadvantages. To provide a safe and educational environment for everyone who attends the centre. Anyone with an interest in horses and land management will be welcome to get involved, work as part of our team, learn new skills and gain confidence, while improving their mental health and self-esteem.”

## Geography

---

- **Main operating location:** Dumfries And Galloway
- **Geographical spread:** Wider, but within one local authority area
