During the year the charity's social media presence increased to raise awareness of the charity's work to promote and support the development of a community of people with an interest in homeopathy in Scotland. Achievements and performance

Summary of the main achievements of the charity during the financial period

As mentioned above the charity have been focussing on the design and development of the website which is now up and running.

1. We continued to develop an action plan aligned with the original targets. We had to adjust our timelines for annual targets due to these challenges, but we remain committed to achieving our overall goals.
2. We successfully carried out the set of agreed-upon actions that helped to build a strong and engaged community of associate members interested in homeopathy. During the year 15 new individuals have signed up via the website taking the current count to 69.
3. To raise awareness of the Helen Campbell Homeopathy Foundation SCIO's work, work on developing a social media presence through the website and other media channels continued. The Foundation grew its followers on Twitter from 225 to 276. We believe that the social media strategy has helped to strengthen the community and increase engagement with Helen's vision.
4. The website is a key tool/platform developed in line with Helen's wishes to build a community of people with an interest in homeopathy in Scotland.
 - a. The website acts as a platform for the associates to share their interests that can inform events and meetings.
 - b. The website serves as a tool for Helen to promote meetings, events, and blogs, and operates as a booking system for meetings at the house.
 - c. We have also maintained and updated the website to ensure it remains an effective tool for the organisation.
5. 20 blog articles were written and published to drive awareness of homeopathy practices and the Foundation.
