

OSCR Annual Report for SC049146: Tralee Community Ownership Project

Dear Sir/Madam

Regrettably, there has again been no activity, financial or otherwise, on the Project during the accounting year. Our funds remain at £36.00 cash in hand. As the only active Trustee, I was on the point of dissolving the SCIO in October, as I had received no positive responses to my email poll of Steering Group members. At the last minute, a concerned individual from the community asked me to delay this, as he had been in touch with the Scottish Land Fund. I had a brief meeting with this person and a representative of the SLF today. We agreed to continue exploring opportunities to revive the project. I will, however, be taking a back seat from now on, and will send details of a new Principal Contact in due course, when I return from holiday.

I am very sorry for the delay in submitting this report. At least the SCIO remains alive!

Yours faithfully
