**The University of Aberdeen Development Trust SCIO
Chair's Report to the SCIO Trustees
For the Year Ended 31 July 2024**

It is my pleasure to present this report to the SCIO Trustees. The accounts presented are those of the SCIO Group that consolidates the results of the University of Aberdeen Development Trust SCIO (SC050996) and the original University of Aberdeen Development Trust (SC002938). The accounts presented in this report, cover the financial year from 1 August 2023 until 31 July 2024.

I am pleased to report on a highly successful year for the SCIO, with significant uplift in funds raised during this period. We remain hugely grateful to University alumni, donors, and friends whose generosity contributes to the strategic aims of the University of Aberdeen and impacts on not only our student and staff communities, but our local region, and the wider world.

In 2023/24, the SCIO's donations and legacies income was £6.2m, with the Group's donations and legacies income totalling £6.4m. This is a significant increase on the prior year's income of £2.9m and was predominately driven by a number of high value legacy gifts received within the year. The principal areas supported by donors continue to be students, including scholarships, student experience and widening access, as well as broad areas of academic research.

We are hugely grateful for the number of alumni and donors who supported the Development Trust SCIO with gifts in their will this year. We received a very generous legacy gift from Mrs Ruth Smith, widow of Bernard H Smith, MBChB 1940. Further generous legacy gifts were received from Dr Ian Slessor and Miss Jemina Stewart, among many others. These legacies will help support neurological research, the Interdisciplinary Institute and other strategic priorities. We remember all those who gave a gift in their will to support future generations to flourish at this great institution.

We have again received support from individuals, families, and groups, as well as partner charities, companies, trusts, and foundations. Every contribution is deeply appreciated and valued. On behalf of all at the SCIO I offer our grateful thanks to our many supporters during the past 12 months.

I also thank the members of staff in the Development and Alumni Relations and Finance teams, for their efforts this year, and the many colleagues across the University who support philanthropy and engagement with our stakeholders.

In closing I will repeat my grateful thanks on behalf of all at the SCIO Group for the exceptional generosity of the global Aberdeen family: your continued support helps to make an Aberdeen education accessible to all, drives forward world-class research and helps to protect and enrich our unique campuses.

Date: 20 November 2024

**The University of Aberdeen Development Trust SCIO
Report of the SCIO Trustees
For the Year Ended 31 July 2024**

Objectives and Activities

The SCIO continues to conduct all its activities in support of its founding mission to attract philanthropic support for the University of Aberdeen. Its activities are guided by the SCIO constitution.

The SCIO focusses on the cultivation of major lifetime and legacy gifts from high-level donors including individuals/alumni, companies, and charitable trusts and foundations.

As in previous periods, principal funding sources include individual donors, both alumni and non-alumni, charitable trusts and foundations, and companies and community groups. All awards made adhere to the charitable objectives of the SCIO and meet the requirements of any conditions imposed upon the SCIO from these funding sources. A formal application process is in place so that appropriate governance is maintained over the disbursement of all funds. The SCIO ensures that any grant application complies with restrictions and that sufficient funding is in place to make an award. The Disbursement Committee, a sub-committee of SCIO Trustees, meets annually to review applications for unrestricted funds and donations. Offers of funding are only made available once these actions have been completed.

Volunteers

Many volunteers generously contribute their time, skills, and knowledge to support the activities of the SCIO. This takes many forms and includes offering professional and networking advice and contacts and serving on the Board and its sub-committees. Volunteers also make a significant impact through community fundraising: hosting or participating in fundraising events – e.g., taking part in running or cycling challenges, and collecting donations from friends and family to support the SCIO's fundraising priorities.

Relationship with Funders and Beneficiaries

Development staff work with a wide range of stakeholders to maximise philanthropic support. The SCIO also receives support from volunteers in a variety of ways e.g., Board membership, hosting events, guest lectures or providing mentoring for students.

Development staff establish and maintain excellent relationships with key academic and non-academic staff at the University. In particular, the SCIO works closely with a range of 'academic champions' whose vision is essential in order to present high-quality proposals to potential donors. Academic colleagues' contributions are vital when disbursing charitable funds for specific purposes; ensuring that projects for which funding has been secured are completed as planned. Academic colleagues also support the production of 'donor reports' following grants being expended.

Achievements & Performance

During the period covered by this report the SCIO attracted support for a wide range of projects across the University including scholarships and studentships, student experience, prizes (including in memoriam gifts) and research across academic disciplines.

Financial Review

Total income of the SCIO Group for 2024 was £7.5m (2023: £4.7m) including £6.4m for donations and legacies (2023: £2.9m) and £1.2m from investment income (2023: £0.8m). There was £nil income from operational funding in 2024 (2023: £1.0m). Awards for University projects amounted to £5.4m, an increase of £0.1m from the previous year. Expenditure on fundraising activities totalled less than £0.1m (2023: £0.7m).

Net incoming resources were £1.8m compared to outgoing resources of £1.6m in the previous year. Cash levels increased during the year to £10.9m (2023: £9m). Unrestricted funds as at 31 July 2024 amounted to £0.6m (2023: £0.7m), restricted funds were £39.8m (2023: £34.4m) and endowment fund balances were £18.9m (2023: £17.1m).

Investment Performance

The SCIO Group's investment portfolio has continued to perform robustly given the challenging economic circumstances of the past few years. The portfolio was valued at £48.2m as at 31 July 2024 compared with £42.8m in the prior year, with the growth having been driven by the strong performance in the year.

**The University of Aberdeen Development Trust SCIO
Report of the SCIO Trustees
For the Year Ended 31 July 2024**

SCIO Trustees' responsibilities in relation to the financial statements

Under charity law, the SCIO Trustees are responsible for preparing a Trustees' Annual Report and financial statements for each fiscal year which show a true and fair view of the state of affairs of the charity and of the excess of income over expenditure for that period. The SCIO Trustees have elected to prepare the financial statements in accordance with UK Accounting Standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*.

In preparing these financial statements, generally accepted accounting practice entails that the SCIO Trustees:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether the recommendations of the Statement of Recommended Practice have been followed, subject to any material departures disclosed and explained in the financial statements;
- state whether the financial statements comply with the applicable constitutional documents and rules, subject to any material departures disclosed and explained in the financial statements;
- assess the charity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the charity or to cease operations or have no realistic alternative but to do so.

The SCIO Trustees are required to act in accordance with the constitution and the rules of the charity, within the framework of charity and other relevant laws. They are responsible for keeping proper accounting records, sufficient to disclose at any time, with reasonable accuracy, the financial position of the charity at that time, and to enable the SCIO Trustees to ensure that, where any statements of accounts are prepared by them under the Charities and Trustee Investment (Scotland) Act 2005, those statements of accounts comply with the requirements of regulations under that Act. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the charity and to prevent and detect fraud and other irregularities.

The SCIO Trustees are responsible for the maintenance and integrity of the financial and other information included on the charity's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

For the Year Ended 31 July 2024**

Trustees and Key Management Personnel

The SCIO Trustees who served during the financial year or thereafter to the date of this report are:

There have been no resignations to the date of the financial statements.

The senior manager is [REDACTED] Head of Advancement Services. [REDACTED] is employed and paid by the University of Aberdeen, and the University donates her time to the SCIO.

Reference and Administrative Details

The University of Aberdeen Development Trust SCIO has been entered into the Scottish Charity Register and is entitled, in accordance with section 13 (1) of the Charities and Trustee Investment (Scotland) Act 2005, to refer to itself as a charity registered in Scotland (Scottish Charity number SC050996).

The University of Aberdeen Development Trust SCIO appeals for, and receives, private funds for the benefit of the University of Aberdeen, for the purposes set out below.

For the Year Ended 31 July 2024**

Structure, Governance & Management

The University of Aberdeen Development Trust SCIO is a Scottish Charitable Incorporated Organisation and is governed by its Constitution, ensuring that all activities are aligned with the standards of best practice pursued by all leading charities.

The terms of the Constitution encourage developments in the University of Aberdeen and the promotion of research therein. The purposes of the constitution, approved by the Office of the Scottish Charity Regulator (OSCR), are detailed below:

1. To fundraise in accordance with the Code of Fundraising Practice from time to time or other reputable Code or protocol adopted as best practice and to manage the investment and disbursement of the funds of the SCIO for the advancement of education, health, the arts, heritage and science, for the primary benefit of the University in pursuance of its Strategic Plan from time to time, the University community (undergraduates, postgraduates, alumni and others) including but not limited to the following:-
2. To encourage new developments and innovations in the research and teaching of the University and to the support of student academic achievement and financial need.
3. To assist in the preservation of the heritage of the University, whether by preservation of particular buildings and enhancement of the environment or otherwise.
4. To enhance the resources of the University libraries, special collections, and other facilities which help to fulfil the mission of the University.
5. To maintain and strengthen the links between the University and the wider world including the community and culture of the north of Scotland by any means.
6. To provide facilities for the welfare of staff and students of the University, including provision for disabled or economically deprived students.
7. To partner with other agencies in research and equipment purchase where there is a meaningful benefit to the University for teaching and/or research purposes.
8. To support any other purpose or activity which may be approved by the SCIO Trustees provided always that they are exclusively charitable or educational and of material benefit to the University.

Statement as to Disclosures of Information to Auditors

So far as the SCIO Trustees are aware, there is no relevant audit information of which the charity's auditors are unaware, and each trustee has taken all the steps they ought to have taken as a trustee in order to make themselves aware of any relevant audit information and to establish that the charity's auditors are aware of that information.

SCIO Trustees

The SCIO Trustees meet at least four times per year to monitor the SCIO's performance and to discuss long and short-term strategic issues. Following the recommendations of the Governance and Nominating Committee, new SCIO Trustees can be elected at a Trustees' meeting. The Principal of the University of Aberdeen, University Chancellor, and Lord Provost of Aberdeen are entitled to be appointed as SCIO Trustees ex officio, and the Principal and Lord Provost have accepted such appointments. The University's Pro Chancellor, [REDACTED] has been appointed Trustee and has accepted such appointment.

**The University of Aberdeen Development Trust SCIO
Report of the SCIO Trustees
For the Year Ended 31 July 2024**

The term of membership of SCIO Trustees is an initial term of up to three years with eligibility, subject to approval by the Board, to extend for a period of up to three years, and the potential, at the sole discretion of the Board, to be reappointed for a further period of up to 3 years.

Induction for new SCIO Trustees takes the form of an individual briefing on the background of the SCIO, its aims and objectives, the role of trustee, and details of the current broad development and alumni programme. All SCIO Trustees are provided with a copy of OSCR Guidelines and receive regular online OSCR communications.

The prior Director of Advancement departed her post in May 2024 and the position remains vacant at the time of issue of this report. The Interim Director of Advancement is currently responsible for the daily operation of the fundraising and alumni relations programmes with the support of the Head of Alumni Relations and Regular Giving, and the Head of Philanthropy within the University of Aberdeen.

The Interim Director of Advancement also provides regular reports to the SCIO Trustees outlining fundraising and alumni engagement performance. The SCIO Trustees meet to discuss strategy, fundraising progress, and expenditure, and to approve significant financial undertakings. Additional information sessions are also provided within the schedule of meetings, giving University senior and academic staff the opportunity to present to SCIO Trustees, enabling the group to become familiar with significant research or capital investment projects.

The Board devolves approval of expenditure of philanthropic funds to the Head of Advancement Services, or an appointed deputy, up to £50,000. Any one SCIO Trustee can approve awards over £50,000 providing the expenditure meets the guidelines for which the fund was established.

The Head of Advancement Services is the senior manager for the University of Aberdeen Development Trust SCIO whose time, along with that of the Gifts and Funds Officer, the Gifts and Funds Co-ordinator, and a portion of the time of one Senior Financial Accountant, is donated to the SCIO by the University of Aberdeen.

All SCIO Trustees give their time freely and no Trustee remuneration was paid in the year. Details of Trustee expenses are disclosed in note 6 to the accounts. The Head of Advancement Services is the key administrative role for the SCIO and liaises with the University of Aberdeen's Interim Director of Advancement. The SCIO has no direct staff and staff time is donated to the SCIO by the University of Aberdeen.

Related Parties

Transactions with related parties are disclosed in note 17 to the accounts.

Risk Management

The SCIO Group has a detailed risk register. This is updated regularly and discussed at SCIO Trustee meetings at least every six months with consideration given to existing and emerging risks specific to the SCIO.

The SCIO's Compliance Committee is a sub-committee of the Board of SCIO Trustees which oversees various elements of risk, directing specific major issues to the full SCIO Board as appropriate. The Compliance Committee has responsibility to oversee compliance with legislation and best practice for charities, the SCIO's Gift Acceptance Policy (see below), decisions relating to repurposing historic donations whose originally intended purpose can no longer be achieved, financial investment, and nominations for the Benefactor to the University Award.

The SCIO's Gift Acceptance Policy was approved by the Development Trust Trustees in April 2022. The Compliance Committee considers the acceptance of gifts in excess of £500,000 or where, in the opinion of staff or SCIO Trustees, the source may give rise to reputational risk.

As in the previous period, the SCIO Trustees continue to recognise that the ongoing uncertainty in the global economy means there is a risk, as there is for all UK charities, that the SCIO will be unable to achieve the anticipated levels of fundraising. The SCIO Trustees remain satisfied that these risks are minimised by careful management of the grant-making process which ensures that funds are expended

**The University of Aberdeen Development Trust SCIO
Report of the SCIO Trustees
For the Year Ended 31 July 2024**

responsibly. The SCIO Trustees also recognise that a continued inability to meet fundraising targets would impact upon the SCIO's capacity adequately to support the ambitious aims of the University. The Interim Director of Advancement regularly reviews fundraising performance, methodologies, and prospective income sources to ensure a broad and varied portfolio of donors. This breadth of income helps to guard against long-term, sustained decreases in donation income.

The University of Aberdeen Development and Alumni Relations Directorate is included in the wider risk-management programme for the University's King's College campus. This is due to a shared element of business continuity planning from operating at the same campus location. However, this is independent of the aforementioned SCIO specific risk register.

The SCIO's own risk register identifies a range of potential risks, including investment performance, assesses the likelihood of these issues arising and outlines the action being taken to mitigate this, using the University template for best practice.

Investment Policy

The Investment Policy set by SCIO Trustees is:

1. To maximise the long-term total return of the Fund subject to the risks normally associated with a balanced approach to fund management.
2. To manage the portfolio in order to achieve the income level required to meet future expenditure commitments and then achieve growth in the portfolio.
3. To review performance of the professional fund managers against an index of charitable funds.

Management of the SCIO's investment portfolio is pooled with that of the University and managed via the University's Investment Committee. Mr Andrew Gordon and Mr Fraser Lundie are the SCIO Group representatives on the Committee which has a fund management agreement with external investment advisors who manage the portfolio on their behalf. The Committee reviews the performance of the professional fund managers in looking after the funds of the Trust and the University. The main fund managers are currently Goldman Sachs. Decisions by the Committee relating to the investment of the Trust's investments require the approval of the SCIO Group's representatives.

Reserves Policy

Restricted funds comprise funds donated for specific purposes within the SCIO's objectives. Grant awards are made dependant on the resources available in order to ensure that the SCIO can meet its commitments. The SCIO has no specific target level of reserves, and they are held until awarded.

The SCIO must ensure that donations are used for the purposes specified by the donors, while also ensuring that best value is achieved from the gift. Proposals are welcomed from the University of Aberdeen, and these are confirmed by way of an offer authorised by staff and Trustees for larger awards.

The SCIO must also consider the unrestricted reserves of the charity. The SCIO Trustees are of the opinion that the level of unrestricted funding is sufficient for operational expenditure. Following the change in structure and the University of Aberdeen now meeting all staff costs and the majority of operating costs, the SCIO Trustees are content that this level of reserves is sufficient to deal with any unforeseen costs that may arise.

Funding Sources

The SCIO has a number of funding sources: a regular giving programme solicits lower level (less than £10,000) gifts from alumni through email and direct mail, guided by relevant data protection laws where applicable. Community fundraising is also a source of income with individual and staff fundraising initiatives.

The Philanthropy team focuses on major gift income streams including gifts from individuals and organisations, as well as legacy giving.

**The University of Aberdeen Development Trust SCIO
Report of the SCIO Trustees
For the Year Ended 31 July 2024**

Plans for Future Periods

The SCIO remains committed to the management and disbursement of funds in accordance with its general duties as set out in its constitution, including the convening of an Annual General Meeting and compliance with all relevant legislation.

Going Concern

The SCIO Group's activities, financial performance and financial position, together with factors likely to affect its future development have been considered in the University's going concern assessment outlined in Note 1 to the financial statements.

Approved by the SCIO Trustees on 20 November 2024 and signed on their behalf by:

Independent Auditor's Report to the Trustees of the University of Aberdeen Development Trust SCIO and its Group for the Year Ended 31 July 2024

Opinion

We have audited the financial statements of the University of Aberdeen Development Trust SCIO for the year ended 31 July 2024 which comprise the Consolidated Statement of Financial Activities, Charity Statement of Financial Activities, Group and Charity Balance Sheet, Consolidated Cash Flow Statement and the related notes 1 to 20, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 102 "The Financial Reporting standard applicable in the UK and Republic of Ireland".

In our opinion the financial statements:

- give a true and fair view of the state of the charity and group's affairs as at 31 July 2024 and of its incoming resources and application of resources for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice;
- have been prepared in accordance with the Charities and Trustee Investment (Scotland) Act 2005 and regulation 8 of the Charities Accounts (Scotland) Regulations 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the charity and group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the trustees' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the charity or group's ability to continue as a going concern for a period of 12 months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the trustees with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the trustee's ability to continue as a going concern.

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The trustees are responsible for the other information contained in the annual report.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Independent Auditor's Report to the Trustees of the University of Aberdeen Development Trust SCIO and its Group for the Year Ended 31 July 2024

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which the Charities Accounts (Scotland) regulations 2006 requires us to report to you if, in our opinion:

- the information given in the financial statements is inconsistent in any material respect with the trustees' report; or
- proper accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records and returns; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of trustees

As explained more fully in the trustees' responsibilities statement set out on page 4, the trustees are responsible for the preparation of the financial statements and for being satisfied that give a true and fair view, and for such internal control as the trustees determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the trustees are responsible for assessing the charity and group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the charity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

We have been appointed as auditor under section 44(1) (c) of the Charities and Trustee Investment (Scotland) Act 2005 and report in accordance with the Act and relevant regulations made or having effect thereunder.

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent Auditor's Report to the Trustees of the University of Aberdeen Development Trust SCIO and its Group for the Year Ended 31 July 2024

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the charity and determined that the most significant are FRS 102 and the Charities Statement of Recommended Practice.
- We understood how the University of Aberdeen Development Trust SCIO is complying with those frameworks by making enquiries of management and those responsible for legal and compliance procedures. We corroborated our enquiries through our review of the Board of Trustees of the SCIO meeting minutes, as well as consideration of the results of our audit procedures to either corroborate or provide contrary evidence which was then followed up.
- We assessed the susceptibility of the charity and group's financial statements to material misstatement, including how fraud might occur by meeting with management to understand where they considered there was susceptibility to fraud. Where this risk was considered higher, we performed audit procedures to address the risk of fraud and management override.
- Based on this understanding we designed our audit procedures to identify noncompliance with such laws and regulations. Our procedures involved enquiries of management, those charged with governance and those responsible for legal and compliance procedures; journal entry testing with a focus on journals indicating large or unusual transactions based on our understanding of the business; review of Board of Trustee meeting minutes to identify any non-compliance with laws and regulations, and inspection of any correspondence between the charity and the Office of the Scottish Charity Regulator.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the charity's members, as a body, in accordance with Regulation 10 of the Charities Accounts (Scotland) Regulations 2006. Our audit work has been undertaken so that we might state to the charity's trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity, the charity's trustees as a body, for our audit work, for this report, or for the opinions we have formed.

The University of Aberdeen Development Trust SCIO

Notes to the Financial Statements for the Year ended 31 July 2024

Note 1

Principal Accounting Policies

Basis of Preparation

The financial statements for the year ended 31 July 2024 have been prepared in accordance with applicable Accounting Standards in the United Kingdom, the recommendations set out in the Statement of Recommended Practice - "Accounting and Reporting by Charities (FRS102 – effective 1 January 2019)", the Charities and Trustee Investment (Scotland) Act 2005 and regulation 8 of the Charities Accounts (Scotland) Regulations 2006.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements. The financial statements are prepared in accordance with the historical cost convention, apart from investments which have been stated at market value.

Management has made judgments, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. Notable judgments pertain to the recognition of legacies and investment income amounts. The cash value obtained could differ from any estimates made.

Scope of the Accounts

The SCIO Trustees present their report and audited financial statements for the year ended 31 July 2024 for the SCIO Group, comprising of the University of Aberdeen Development Trust SCIO (SC050996) and the University of Development Trust (SC002938). This report is prepared in accordance with the recommendations of the Statement of Recommended Practice (FRS102) and complies with applicable law and regulations.

Group Financial Statements

The financial statements consolidate the results of the University of Aberdeen Development Trust SCIO and the University of Aberdeen Development Trust (SC002938) of which it is the Trustee.

Going Concern

The financial statements have been prepared on the going concern basis. Following the change of structure in FY2023/24, the SCIO has agreed with the University of Aberdeen that staff support and other resources required to manage SCIO Group funds will be provided by the University and donated to the SCIO. The University has confirmed its intention to continue with this practice.

As at 31 July 2024, the Group held net asset balances of £59.4 million, including investments of £48.2 million and cash balances of £10.9 million. As a result, the Trustees main concern is to ensure that only funds held can be awarded, and the application and awards process detailed on page 3 is in place to ensure that the control is in place.

Consequently, the SCIO Trustees are confident that the SCIO will have sufficient funds to continue to meet their liabilities as they fall due for at least 12 months from the date of approval of the financial statements.

The SCIO Trustees consider that there are no material uncertainties about the SCIO's ability to continue as a going concern.

Tangible Fixed Assets and Depreciation

Tangible fixed assets with a cost of more than £500 are capitalised. Depreciation is provided to write off the cost of tangible fixed assets by equal instalments over their estimated useful economic lives as detailed below:

Computers and other equipment: 4 years Mobile phones: 2 years

Investments

Investments are stated at market value at the balance sheet date and are stated at bid prices where available. Movements are recognised in the surplus or deficit. Structured notes (buffered equity) are stated at cost. The Trust applies a sustainable investment policy held by the approved advisors.

Income

Income is recognised when the charity has entitlement to the funds, any performance conditions attached to the item(s) of income have been met, it is probable that the income will be received, and the amount can be measured reliably. Donations or legacies notified to the charity, but which do not meet the criteria are disclosed, where material, as a contingent asset. Specific income sources are recognised as follows:

The University of Aberdeen Development Trust SCIO
Notes to the Financial Statements for the Year ended 31 July 2024

Note 1

Principal Accounting Policies – continued

Donations

Donations and gifts are recognised in the statement of financial activities in the year of receipt. Where there is sufficient evidence to provide the necessary probability that a donation will be received and the value of the incoming resources can be measured with sufficient reliability, the donation is accrued for. Pledges are only recognised once the gift has been received, gifts of investments are recorded at market value on the date of transfer.

Donations given for a restricted purpose will be recognised within a restricted/endowment fund for that purpose.

Donated Services

Donated services are recognised as income on the basis of the value of the gift to the SCIO, a corresponding amount is then recognised in expenditure in the period of receipt.

Legacies

Legacies are credited to the statement of financial activities in the year of receipt. Where there is sufficient evidence to provide the necessary probability that a legacy will be received and the value of the incoming resources can be measured with sufficient reliability, the legacy is accrued for. In the event that the gift is in the form of an asset other than cash, or a financial asset traded on a recognised stock exchange, recognition is subject to the value of the gift being reliably measurable with a degree of reasonable accuracy and the title to the asset having been transferred to the charity.

External funding

External funding represents the value of income receivable during the year from the University of Aberdeen.

Investment Income

Dividends, for funds with pooled investments, and interest are allocated in proportion to the balance of the fund at the beginning of the year. Dividends and interest on bank deposits are credited in the year in which they are receivable.

Expenditure

All expenditure is accounted for on an accruals basis. All expenses including support and governance costs are apportioned to the applicable expenditure heading as detailed below.

Grants to University of Aberdeen

Payments of grants to the University are recognised when an approved offer is communicated and are charged directly to the appropriate fund.

Support Costs

Management & administration costs, which includes the donated cost of administration and support staff, are charged to unrestricted funds. All support costs are allocated to the single charitable activity of the provision of funding to the University of Aberdeen.

Fundraising Costs

The SCIO does not incur any general fundraising costs. Costs in respect of fundraising relating to specific funds are allocated to the relevant funds.

Realised and Unrealised gains and losses

Realised gains and losses are allocated to the invested funds in proportion to the opening balance on the funds. Unrealised gains and losses are held separately and are only allocated once realised by disposal of the investment.

Trade and Other Debtors and Creditors

Trade debtors primarily consist of prepayments in relation to software and other subscriptions and are recognised based on the number of months outstanding. Other debtors include accrued legacies that are recognised in line with SORP recognition guidelines and outstanding Gift Aid. Creditors are recognised based on amounts due to external parties at the year-end date. These include invoices received and offer letters approved prior to 31 July.

Cash

Cash, for the purpose of the cash flow statement, comprises cash in hand and deposits repayable on demand and cash held for investments, less overdrafts payable on demand.

The University of Aberdeen Development Trust SCIO
Notes to the Financial Statements for the Year ended 31 July 2024

Note 1

Principal Accounting Policies – continued

Funds Policy

Funds are analysed between restricted, unrestricted and endowment funds. Trustees may opt to allocate unrestricted donations to specific campaign priorities as designated funds with the unrestricted classification. Restricted funds are created to meet the wishes of donors or for major campaigns. Endowment funds are created to establish a fund whereby only the annual income can be awarded and is often used to preserve the longevity of scholarships or prizes. Awards are only made to the University where sufficient funds exist or where income is guaranteed in the future. Funds will usually only be in deficit due to timing differences.

Financial Instruments

The SCIO only has financial assets and financial liabilities of a kind that qualify as basic financial instruments. Basic financial instruments are initially recognised at transaction value and subsequently measured at their settlement value.

Staff Costs and Key Management Personnel

The University of Aberdeen Development Trust SCIO has no direct employees. Staff and operating costs have been donated by the University of Aberdeen during the year – for the period to November 2023, this included 3.0 full time equivalent administrative staff members, and from December 2023 this increased to 3.7 full time equivalents.

Trustees were not paid or received any other benefits from employment with the Trust. Expenses of £2k were paid to SCIO Trustees during the year (2023: less than £1k).

No staff were paid more than £60k during the year.

Note 13

Analysis of Net Assets between Funds – Group – continued

	Tangible Fixed Assets £000	Fixed Asset Investments £000	Net Current Assets £000	Funds at 31 July 2023 £000
Restricted Funds	-	29,081	5,342	34,423
Endowment Funds	-	13,764	3,296	17,060
Unrestricted Funds	-	-	718	718
	<u>-</u>	<u>42,845</u>	<u>9,356</u>	<u>52,201</u>

Unrestricted funds may be used by the SCIO for any purpose and currently support fundraising and administration costs as these currently represent unused grant funding provided by the University of Aberdeen. Trustees may opt to set aside unrestricted gifts for specific campaign priorities as designated funds within unrestricted funds. There are currently no designated funds (2023: nil).

Restricted funds are to be used for particular purposes specified by the donor and are listed from page 25 in Note 18 – Movement in Funds. Endowment funds are a subcategory of Restricted fund whereby, as standard practice, only the accumulated annual investment income is available for the specified charitable activities.

Note 17

Related Parties

The Board of SCIO Trustees are drawn from a pool of individuals across a variety of professions and therefore transactions will occasionally take place with organisations in which a Trustee may have an interest. The following transactions were identified for disclosure for the Group:

Organisation	Relationship	Nature	Receipts £000	Payments £000
The University of Aberdeen	Charity	Operations/Grants	196	5,334

In financial year 2023/24, the Group directly received donations from SCIO Trustees amounting to £3k without conditions (2023: £37k). There were no donations made by SCIO Trustees requiring separate disclosure as outlined in the Charities Statement of Recommended Practice (FRS102).

There were outstanding balances of £15k owing to related parties as at 31 July 2024 (2023: £28k).

Financial Year 2022/23:

Organisation	Relationship	Nature	Receipts £000	Payments £000
The University of Aberdeen	Charity	Operations/Grants	1,096	6,030

Note 18

Movement in Funds

Funds with closing balances of less than £0.25m (c. 0.5%) of total funds have been grouped together as Other Funds within the Restricted and Endowed Funds analysis.

Endowed Funds

	Funds at 1 August 2023 £000	Incoming Resources £000	Outgoing Resources £000	Transfers £000	Funds at 31 July 2024 £000
Kirby Laing Post Doctoral Fellowship (Endowed)	1,708	37	(33)	-	1,712
