Activities

Activities: 'It carries out activities or services itself'

Purposes: 'the advancement of education', 'the relief of those in need by reason of age, ill-health, disability, financial hardship or other disadvantage'

What the charity does: PlayPeace was founded by parents of kids with additional support needs due to the absence of safe places and opportunities for children with additional support needs in North Lanarkshire. Proudly parent led, we offer opportunities for fun, friendships and support all year round through various programmes of activity. Families of any child or young person with additional support needs (diagnosed or undiagnosed) can attend, along with brothers and sisters. A responsible adult or carer is required to attend the sessions with their children or young people. We are at present a small but ambitious charity, offering quality services that set out to remove all barriers to participation. We don't have our own base, instead hiring out various community venues where we offer our services.

Beneficiaries: 'Children or young people'

Objectives: (a) To reduce social isolation and enable community support with and for families who have a child or young person with additional support needs (b) To provide services that enable the maximising of emotional and physical health of children and young people with additional support needs, and their family members and carers (c) To develop the skills of children and young people with additional support needs, and their family members and carers, and the community in learning together through shared experiences, working together and the provision of learning opportunities (d) To promote inclusive practices and services that enable the full participation of families who have a child or young person with additional support needs, to public policy makers and service providers . .

Geography

- **Main operating location:** North Lanarkshire
- **Geographical spread:** Wider, but within one local authority area
