## **Objectives and Activities**

For the public benefits of arts, heritage, culture and science, environmental protection, public education and community development:

- a) The conservation and exhibition of the fossils at Fossil Grove Glasgow,
- b) The refurbishment, alteration, improvement, extension, repair and maintenance of the building and facilities at Fossil Grove, Glasgow,
- c) The operation of Fossil Grove Glasgow as a place of public information, recreation and education,

On the third Sunday of each month Between April and October [REDACTED] assisted by members of the Geological Society of Glasgow opened the Fossil Grove building to the public. These events again proved popular and were well attended.

During the year preparations were being made for the refurbishment works at the Fossil Grove building. The trustees have been kept well informed by Glasgow City Council about the progress of the plans and what can be done within the available funding. The trustees are particularly grateful to [REDACTED] architect, and [REDACTED] from Glasgow City Council for the helpful way in which they have kept the trustees informed. The Contractor is City Building Glasgow who were appointed by the City Council without competitive tendering. Preparations for the works have taking longer than expected. The trustees now hope that the works will begin in the spring of 2025. The expected duration is 10 to 12 weeks. When the works are in progress it will not be possible to open the building to the public. The trustees will use their best endeavours to have the building reopened as soon as possible

## **Financial Review**

In the year the trust made an operating surplus of £13,718 and an overall surplus of £6,380 after taking account of the reduction in the value of investments. Income from donations was £739 and the other sources of income were interest and dividends from investments. Expenditure was small as the trustees are waiting for the refurbishment to be completed before committing further expenditure

During the year the trust invested just under £400,000 in well-established funds with a track record of paying dividends which will provide the trust with a regular source of income to be used to further the trust's objectives.

## **Reserves Policy**

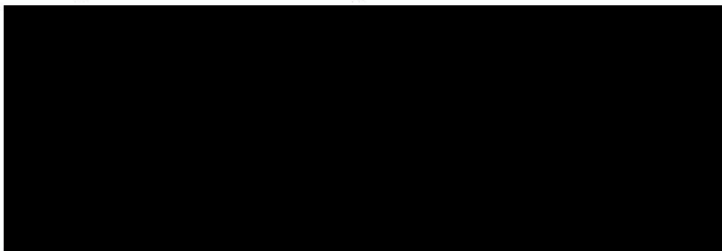

In the year the Trust's reserves increased from £416,523 to £422,903. The trust does not have regular outgoings and the current unrestricted net reserves of £422,903 are considered by the trustees to be more than sufficient to meet any planned expenditure.

## **Plans for future periods**

To continue to monitor and record the condition of the fossils, to carry out essential repairs and in co-operation with Glasgow City Council and the local community seek ways to raise support and finance to change the Fossil Grove building to one which can sustainably conserve and exhibit the fossils in the long term

**The trustees declare that they have approved the trustees' report on 29<sup>th</sup> October 2025**

**Signed on their behalf by:**

A large black rectangular box redacting the signature of the trustee.

The procedures undertaken do not provide all the evidence that would be required in an audit and, consequently, I do not express an audit opinion on the view given by the accounts.

In the course of my examination, no matter has come to my attention
