Achievements and performance

Summary of the main achievements of the charity during the financial period

Activities in this first year started with the establishment of the OWT structure, Trustee membership and development of appropriate policy and procedures, which is ongoing. Other basic work included setting up Microsoft and email accounts.

Work towards the Trust objectives began with engagement with relevant local & national stakeholders to introduce the Trust and its objectives, identify common interests and future opportunities for collaboration. This led to one successful funding application to enable the purchase of essential electrofishing equipment and the development of a project proposal as part of the North Isles Landscape Partnership (NILPS) Project.

The Trust secured membership of Fisheries Management Scotland, and was subsequently involved in planning delivery of a Scotland-wide sea lice monitoring project.

We also secured commercial work relevant to our objectives, that included providing advice to a contractors undertaking stream crossings as part of the Orkney Link Cable Project.

Financial review

Brief statement of the charity's policy on reserves

We are yet to finalise a formal reserves policy but aim to within the next 6 months. We will have a better idea of core operation costs by then to inform a policy. Looking to financial year of 2025/26 we anticipate core costs associated with insurance and IT services and have built them into funding applications as part of overheads.
