The organisation has not commenced operations therefore there is no income or expenditure to itemise. We have received no donations and have not completed any activities during this time.

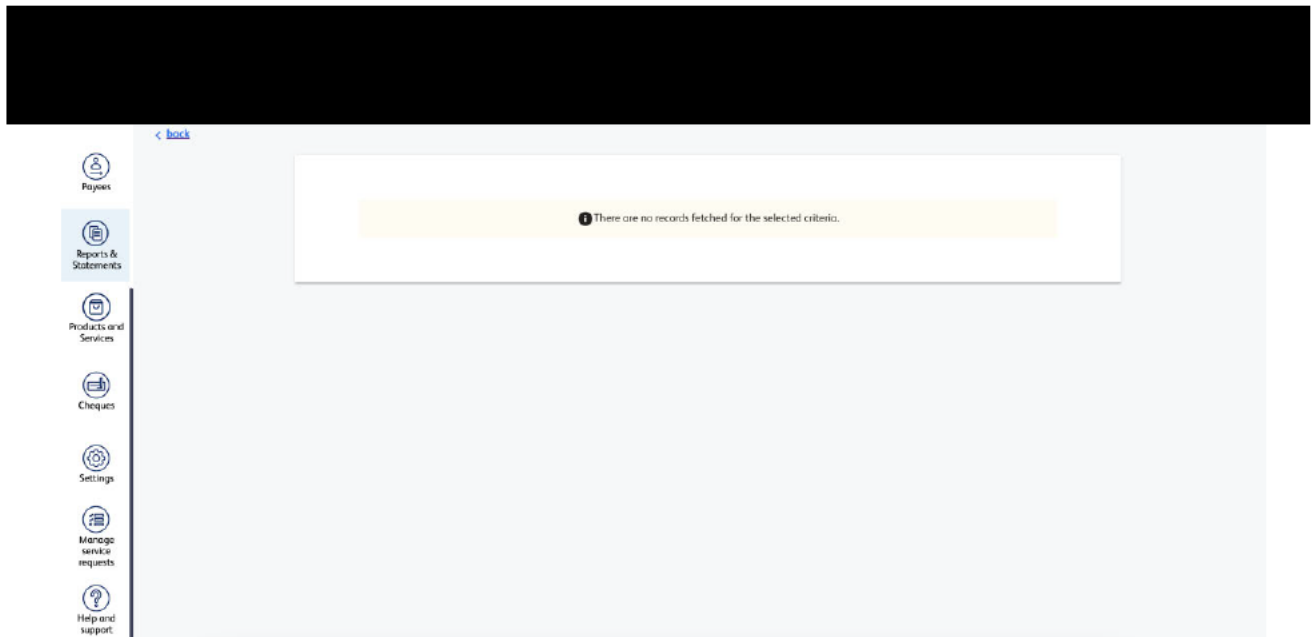

I am unable to produce a bank statement because there have not been any transactions in or out of our bank account. I have attached some screen shots showing zero balance and no statement(s) available.

We plan on commencing operations in August 2025 when we will be hosting our first free local football sessions in the community.
