Activities

Activities: 'It carries out activities or services itself'

Purposes: 'the advancement of education', 'the advancement of the arts, heritage, culture or science'

What the charity does: Our charity is set up to make creative activities such as music, dance, acting, art and taekwondo accessible to every child, regardless of their background. We aim to support families, especially single mothers, by solving logistical challenges when children have different interests, by offering multiple activities under one roof. We help children build confidence, discover their talents and develop a passion for the arts. Our centre also creates opportunities for children to make friends with similar interests and feel part of a supportive community. We deliver this through regular classes, group sessions and community-based activities led by teachers and volunteers, creating a safe and inclusive environment for all children.

Beneficiaries: 'Other defined groups'

Objectives: (a) To advance after-school education for Ukrainian children by providing music lessons for various instruments such as guitar, violin, piano, solfeggios and also acting, drawing, dancing lessons and other activities for children and their parents. (b) To promote an appreciation for visual and performing arts and culture among Ukrainian children to save Ukrainian identification and help the children to share their culture with their peers through performances and translated video materials.
